## Health Office Says Weed Contains Combine of Poison

Local Child Was Victim of Seeds Eaten While Playing in Her Yard

The danger of a plant known as the Jimson weed, which several years ago caused the death of a child in this city, was stressed today through the interest of a local woman.

The weed contains a drug, known as Scopolamine, which is a poison of three other components, Atropine, Scopolamine and Hyoscyamine, and a doctor who treated the child victim about ten years ago, said that it had consumed enough poison through eating the seeds to "kill four or five persons."

Mrs. K. E. Lefren, of 75 Florence street, who has a plant in her yard, recently investigated its dangers and learned its characteristics through a friend in the State Department of Health.

The letter to Mrs. Lefren explained that the Latin name of the plant is *Datura Stramonium*, and its popular names are Jimson or Jamestown weed, (the former being a colloquial corruption of the latter), and Thorn Apple.

Symptoms Listed  
Symptoms of poisoning from the plant, said the Albany letter, are headache, nausea, dizziness, extreme thirst, a dry burning sensation in the skin, dilated pupils, loss of sight, loss of motion, and in extreme cases, convulsions and death.

The child who died at a local hospital a decade ago, its doctor said, was 18-months-old and had been playing "making tea" with older children when the seeds were consumed.

The alkaloid hyoscyamine occurs in the leaves, roots and seeds, the letter said, and another related alkaloid, hyoscyne, is found in the roots. All parts of the plant are poisonous, and children have been poisoned by eating the unripe seed. (Continued on Page 18, Col. 1)

## Congressmen Are Caught Between Economy and Jobs

Cut in Military Budget Irks Those People Concerned About Employment

Washington, Aug. 23 (AP)—Members of Congress found themselves squeezed today between a military economy drive and the outraged cries of constituents affected by the proposed cuts.

A typical example was offered by a western House member. He said he had been deluged up to now with letters urging him to vote for cuts in appropriations. Now he said, the same people are complaining bitterly against military cutbacks in his district.

The predicament resulted from Secretary of Defense Johnson's announcement yesterday that the armed forces plan to fire 135,000 of their 905,000 civilian employees, while returning 12,075 reserve officers from active to inactive status.

That program aims at a \$200,000,000 saving during the fiscal year which started July 1, and savings of \$500,000,000 a year. (Continued on Page 22, Col. 1)

## Forest Fire Battle Has Favorable Turn

Woodstock Has Meeting Slated On New School

Voters Will Talk Over Construction Project for \$235,000 Saturday

A special meeting of voters of the Woodstock School District No. 2, will be held Saturday afternoon, September 3, to consider the proposition of whether or not the trustees shall be authorized to construct a new school at a total cost not to exceed \$235,000, of which not more than \$220,000 shall be raised by the issuance of bonds.

Call for the special meeting was sent out today following a meeting Wednesday night of the board of trustees. This was one of a series of meetings attended by Trustees Clark Nohr, Lorenz Stowell and Adolph Heckerath with Albert Greaser, architect, Walter Van Wageningen, principal, and John E. Fagan, attorney, at which final arrangements for presenting the proposition to the voters, were made.

Plans for the proposed school were approved August 14, by the state education department. The state department, before approving the plans, required they be revised by increasing the size of the rooms over the dimensions shown in the original plans. This revision resulted in some increase of cost.

The building as now planned will be totally fireproof instead of semi-fireproof as originally designed. While this also resulted in some increase in cost estimates, the trustees pointed out, it made it possible to spread the bonds over a 30-year period instead of a 20-year period which is the maximum permitted for semi-fireproof structures.

The proposed building will contain six classrooms, a room designed for use as a library and teachers' office, and a combined auditorium and gymnasium.

Clark Nohr, chairman of the trustees, revealed that the board has already received an unsolicited offer of \$35,000 for the present school property. "We feel that it will bring a much higher price at a public sale, and at a later special meeting we intend to ask the voters for authority to sell it at a public sale to the highest bidder with an upset price of not less than \$15,000," he said.

The proceeds of this sale will go to meet the difference in the estimated cost of \$235,000 and the authorized bond issue of \$220,000.

The school will be considered permanently closed as of June 30, 1949, it was decided. A deed is available for the property and the board of education will be able to convey a quit claim deed to the purchaser, it was announced at the meeting.

A similar school meeting was held last week in the Big Indian district for the purpose of closing that school permanently and disposing of the school building.

**New Rent Control Policy Starts Today**  
Washington, Aug. 23 (AP)—Streamlined procedures for landlords and tenants to seek adjustments under the rent control law became effective today.

Housing Expediter Tighe E. Woods said the new policy provides that both parties serve notice on each other when asking for rent increases or reductions. The same procedure applies on such matters as evictions and other landlord-tenant relations.

Woods said the policy reflects little change from previous regulations which provided that rent officials—and not the parties directly involved—notify both landlords and tenants of possible rent adjustments.

The new procedures were instituted, the rent boss explained, to lighten the work load in rent offices where "heavy personnel slashes have resulted because of an appropriation cut."

**Treasury Receipts**  
Washington, Aug. 23 (AP)—The position of the Treasury August 23: Net budget receipts \$164,469,632.74; budget expenditures \$138,862,833.35; cash balance \$4,595,118,554.65; customs receipts for month \$23,368,828.08; budget receipts for fiscal year (July 1) \$4,057,537,768.58; budget expenditures for fiscal year \$5,673,605,240.31; budget deficit \$1,616,017,471.81; total debt \$255,200,478,945.02; increase over previous year \$72,311,240.08; gold assets \$24,610,753,231.07.

**Plan Palsy Convention**  
Final plans for the state convention of cerebral palsy associations will be made at a meeting of the Hudson Valley Cerebral Palsy Association at the city laboratory Wednesday, August 31, at 8 p. m.

The state convention will be held in Kingston on September 10 and 11.

Rain, Less Wind in North Woods Aid Fight on Flames

(By The Associated Press)  
The battle against fires ravaging North American forests took a favorable turn today.

Rain and diminishing winds aided the fire fighters.

The situation is still serious, however, in many areas. Flames have wiped out valuable timber in western United States, New England and Canada.

One person was killed and four injured yesterday in California's forest fires. Harry T. Meyer, 32-year-old lumber crewman, was killed by a falling tree in Stanislaus national forest where flames have blackened more than 7,100 acres.

Fire fighters in Idaho's national forest still were running into trouble. One of four major blazes in Payette national forest broke loose yesterday and ran over an estimated 6,000 acres.

The total Payette fire area spread to 24,000 acres. An additional 125 men were being added to the 1,700 attempting to check the flames. Two of the main fires were under control.

The outlook in the Black Hills of South Dakota was promising. Rangers looked for favorable winds to blow the flames back over burned out areas. An estimated 3,000 acres of timberland and 10,000 acres of grassland were hit.

Backfires saved Tiltford, a South Dakota village of 3,000 population, from destruction yesterday. About a dozen forest fires still were burning in New England but none was reported as serious.

Scattered showers fell over New England yesterday but there was not enough rain to alleviate the dangerous parched condition of the land.

Main Forest Commissioner Albert D. Nutting said the worst of eight fires burning in his state was in the Flagstaff-Dead River area. Heavy rains also fell in the devastated Yellowstone Park area.

Officials believe all four fires there may be controlled within a day or two.

In Canada, the Ontario Department of Lands and Forests reported all that province's 151 fires were under control. No effective relief from the current dry spell was forecast, however.

A goal damp might brought some relief in Quebec's most serious outbreak in Lac Beauport county. Flames have already taken small toll in buildings but the six towns scattered throughout a 40-mile square area are no longer considered in danger.

The Quebec Forest Protection Service announced that all crown lands from Saguenay in northeastern Quebec to the Ontario border were closed to traffic because of the hazardous conditions.

Approximately 1,600 men continued working against a huge brush fire in north San Diego county in California. It has covered 6,500 acres in the last three days. Two major outbreaks yesterday were partially controlled.

**Records Stolen**  
Herbert Beckman of Camp Vardonia, Whiteport, whose home address is 2407 Bergenline avenue, Union City, N. J., reported to the police at 7:15 p. m., Wednesday that \$33 worth of long-play records were stolen from his car parked near Academy Park across from the Governor Clinton Hotel. They were missed between 6:45 and 7:15 p. m., he said. Detective Clarence Boppre and William Krum were notified.

## British Treasury Hopes to Save Five Percent of Nation's Budget

London, Aug. 23 (AP)—The British treasury has asked all government departments to cut down spending. It hopes to save at least \$600,000,000—or five percent on the nation's budget—in the next year.

A government source, reporting this today, said the treasury action was prompted by Britain's financial crisis. The treasury cut government spending.

Disclosure of the move follows widespread American criticism of the Labor government's home spending. The reduction was said to have been ordered by the chancellor of the exchequer, Sir Stafford Cripps.

The source said the move was not a result of any United States government suggestions.

Another informant, close to the Labor government, said Britain may have to limit her social services and drop the tax-supported medical program if monetary talks in Washington next month end in failure.

Britain's social services, together with food subsidies, cost one quarter of the country's whole annual budget of \$12,000,000,000. Britons now can call on doctors without paying fees under the 13-month-old national health service, though each pays up to six shillings, eight pence weekly (\$1.33) to help support it.

If the Washington parley fails, the informant said, British leaders may have to consider having each person pay a shilling (20 cents) for each visit.

He explained that the calls on the service have far exceeded advance estimates and, if Britain tightens her belt, she cannot go on spending so much on the services of general taxation.

The source said Laborite leaders are waiting until the Washington talks are over before deciding whether to call a quick election this year, or carry on until near the end of their five-year term next July.

He disclosed this as Paul G. Hoffman, American head of the European Cooperation Administration, began talks with British officials before the Washington parley September 7.

The informant said the government expects its gold and dollar reserves to sag more than one fourth by September 30—down to \$1,200,000,000.

At the end of June Britain was down to her last \$1,624,000,000. The treasury's goal had been to keep the reserves at a "safe" margin of \$2,000,000,000.

The informant said Britain's balance-of-payments position for the current quarter looks "very grim" despite rigid import cuts.

## Europe's Recovery Slackens, E.C.A. Report Declares

Washington, Aug. 23 (AP)—The Economic Cooperation Administration (E.C.A.) today reported a slackening in the rate of European recovery.

In a sober report on its first year's operations, the agency said the dollars earned by the nations of Europe during the period were enough to pay for only one-fifth of their imports from the western hemisphere.

"This was the critical problem which the participating nations faced as the European Recovery Program (E.R.P.) entered its second year," the E.C.A. said.

However, the report added, the program's "ultimate objective of a healthy economy independent of extraordinary outside assistance" remains as a difficult but attainable goal.

The report noted that Congress had set up three aims when it authorized the European recovery project: Boosting production, stabilizing currencies and stimulating trade among the participating nations.

"In each of these fields," E.C.A. said, "the nations of Europe made substantial progress in the first twelve months of the European recovery program."

"The year drew to a close, however, there were indications of a slackening in the rate of progress, particularly in the export trade, which gave warning of the difficulties that must be solved before the goal of economic independence can be attained."

The agency noted that western Europe boosted its exports during the 12-month period, through April 2, 1946, until they were about equal to the prewar volume. This, it said, was a significant gain.

"But the persistent difficulties in earning dollars have posed a continuous problem of sustaining the high level of trade which is of vital importance to the recovery program."

State Starts Drive On Objectionable Road Billboards

Only Warning and Control Signs Are Legal in Right-of-Way Along Highways

The New York State Highway Department has begun a drive against illegal and objectionable advertising signs along the right-of-way of state highways, it was announced today from the office of district engineer, State Department of Public Works, in Kingston.

The law provides that no advertising signs will be permitted within the highway right-of-way, except warning and control signs erected by the state. Since the right-of-way width varies in different sections, persons not sure of their right to erect signs are advised to call the State Department of Public Works at 32 Main street in Kingston before erecting new signs.

"The sign was explained. The first concentrate on getting the cooperation of sign owners to remove any illegal signs. If they do not cooperate, however, the state will remove the signs without the permission of the owners. Authority for this is contained in Section 1423 of the Penal Law.

The section also provides a fine of not less than \$5 nor more than \$25, or imprisonment for not more than 10 days or both for violations of the section.

Certain signs are considered objectionable, even when located on privately owned land, the state highway department reported. Following is a list provided by the state of such objectionable signs:

1. Advertising signs along the highway which obstruct distance not otherwise limited.

2. Advertising signs which have red or green lights or red or green reflectors.

3. Advertising signs which have flashing or intermittent illumination.

4. Advertising signs which display the form of an arrow.

5. Advertising signs located with reference to railroad grade crossing, highway intersection or access road intersection which reduce sight distance below the standard for the established highway speed at that point.

6. Advertising signs readable from any section of a highway where the vertical or horizontal curvature, or the existence of immovable objects reduce the sight distance on the highway to less than 1,000 feet.

7. Advertising signs located so close to the pavement as to be considered a hazard, such as possibly falling onto the highway or endangering a car out of control.

8. Advertising signs which are self-illuminated and permit lighting or direct rays of light toward traffic, or are reflectorized and reflect an objectionable amount of light.

9. Advertising signs using traffic warning words or slogans like stop, cautions, and slow.

10. Advertising signs or combinations of signs which contain reading matter which cannot be comprehended at the designated speed of the highway at that point.

## New Party Chairman Is Out to Elect Congress That Will Stand by President

Washington, Aug. 23 (AP)—President Truman put out the welcome mat for southern party bolters today, but demanded that those who cross it get in step with the 1946 Democratic platform.

He delivered the invitation—strictly on his own terms—at a rousing dinner of the Democratic National Committee a few hours after it had read five southern states' rights members from the high command.

And leaving the door open to non-Truman Democrats in Congress to fall in line with the Truman program, the committee exempted them from the party purge.

The fires of revolt, however, already were burning anew. States' Rights announced they are opening Washington headquarters to spread the flames. The whole thing was sparked by southern dislike for Mr. Truman's civil rights program.

**No Longer Wags Dog**  
It was Truman the campaigner—winning free ink by the name of his "give 'em hell" stump of last year—who proclaimed his party of today "a national party, and not a sectional party any more."

"The tail no longer wags the dog," he said.

He went on to say that he won in 1948 without New York, "without the industrial east and without the solid south" and that he was "prouder of that than anything that has ever happened to me."

Then came the invitation: "And that doesn't mean that we are not inviting the industrial east and the solid south and all the rest of the country to join the party of the people and help the country go forward. This is exactly what we are going to accomplish in the next two years."

At the same time, he praised the national committee, which elevated William M. (Bill) Boyle, Jr., former Kansas City police official, to the chairmanship and purged the five southern States' Rights from its rolls for deserting the Truman ticket last year.

**Go Forward, He Says**  
Mr. Truman invited "all those people who are in the main the welfare of this great republic of ours, who are interested in the peace of the world, for which we are striving, to get into the Democratic Party and go forward with it."

The hundreds of diners whooped it up, campaign star style, when the orchestra played, "I'm Just Wild About Harry."

"I'd like for that to go on," he grinned as he quitted the crowd, "but this is not a nominating convention."

Meanwhile, Boyle, who took over from J. Howard McGrath, the new attorney general, said he plans no purge of non-Truman Democratic congressmen.

While a number of them are not giving the President solid support, Boyle said it is up to the people to elect the right kind of men to Congress.

**Want Support**  
But, he added, he and the party (Continued on Page 22, Col. 3)

Committee Digs Way Into How Agents of Perfume Company Got Plane Rides

Customs Find Valuable Perfume Carried by Maragon

Washington, Aug. 23 (AP)—Senate investigators today turned up a memo from Maj. Gen. Harry H. Vaughan to State Department authorities saying President Truman was "personally interested" in a prospective European trip for John Maragon in August 1945.

Agents of a Senate investigating subcommittee introduced into its records a memorandum from Vaughan, dated Aug. 3, 1945, which said that Maragon was interested in visiting Italy for the Albert H. Verley Perfume Co. of Chicago.

The memorandum contained this pencilled note in the lower left hand corner: "Col. Vaughan informed Mrs. Shipley (Mrs. Ruth E. Shipley, chief of State Department Passport Bureau) that the President is personally interested in Maragon's trip to Italy—Col. S. agrees that he is."

It was signed J.F.S. 8/28/45. The military permit procedure in effect at the time listed as "I.D." persons "whose travel is authorized by the President."

The senators, digging into the question of whether there has been improper influence in the conduct of government "business," have wanted to know how Maragon and other agents of the perfume company managed to get passage on military transport planes to Europe in 1945.

Committee agents also put into the record documentary evidence to the effect that:

"The President's army aide, gave a letter of introduction to David Bennett, president of the Albert Verley Perfume Co., and an associate, to make a trip to Europe in May, 1945. The trip was made in an army transport plane."

Three other representatives of the company, including John F. Maragon, Washington man-about-town who formerly had entree to the White House, made a trip to Europe in July 1945. This trip also was made in an A.T.C. plane.

It was on the return from the July trip that Maragon got into difficulties with customs agents who found he had valuable perfume oils disguised as champagne for the White House.

The committee was informed today that Maragon settled that case for \$1,500—including \$1,145 assessed as a penalty.

Francis D. Mangan, assistant counsel, introduced the various documents, including the State Department memorandum.

Mangan said "J.F.S." was a "Mr. Scanlon," assistant to Mrs. Shipley.

Senator Mundt (R-S. D.) commented that he thinks President (Continued on Page 22, Col. 4)

## Mary Lou Mehm Has Perfect School Attendance Record

Period Covers 12 Years for K.H.S. Senior; Other Pupils Are Listed

Mary Lou Mehm, daughter of Mr. and Mrs. Frank Mehm of 28 Staples street, who will enter her senior year at Kingston High School next month, has a perfect record of 12 years attendance at school.

While Mary Lou leads the local students in years of perfect attendance, closely followed by Beverly Rossa, daughter of Mr. and Mrs. A. J. Rossa of 19 Hewlett Place, who has a record of 11 years, good attendance apparently runs in the Mehm family for Carol Mehm, a sister of Mary Lou, had a record of six years when she last one day from school and a brother, Frank, had a record of 7 years perfect attendance at school when he was graduated in 1945.

Two Kingston school pupils have records of seven years perfect attendance. They are Barbara Rossa, a high school student, and Robert Lucifoli, a 12th M.J.M. School.

A perfect attendance record means that the student has been neither absent nor tardy during the school year.

As of June 1949 there were 239 (Continued on Page 22, Col. 3)

## Acheson and Bevin May Discuss Asia Bloc Against Reds

Washington, Aug. 25 (AP)—Secretary of State Acheson and British Foreign Minister Bevin are expected to discuss possible development of an anti-Communist bloc of nations in the south-east Asia area when they meet here next month.

Formation of such a bloc, to develop that area along western democratic lines, has been suggested by various leaders, including President Quirino of the Philippines.

It is one of the things on which the American government will have to make a decision in arriving at a new policy toward the Far East as a result of the Communist successes in China.

To date the United States officially has refrained from giving any open encouragement to the plans of Quirino and others for such an organization. On the other hand during Quirino's official visit here officials displayed a more friendly attitude toward his idea than they had shown previously.

Responsible informants said there is no doubt that Acheson and Bevin will review the whole far eastern situation and seek to

lay the ground work for further British-American cooperation in that area of the world. A similar review is expected between American officials and Prime Minister Nehru of India when Nehru comes here later in the fall.

Acheson is seeking the maxi-

mum coordination of American policies with other friendly nations in the far eastern situation. He also hopes to develop those policies domestically in a "completely bi-partisan" manner.

He made that point clear at a

news conference yesterday in rejecting charges by Rep. Judd (R-Minn.) that the State Department's recent "White Paper" on China was a "dishonest document." Judd had so labeled it because, he said, it did not contain some documents bearing on past

relations with China which he believed would have shown up American policy there in a different light.

In his statement Acheson took the position either that the State Department had been unable to discover the documents Judd

listed or that their publication would not have added any substantially new information to that which actually was given in the White Paper.

One Judd charge dealt with the "suppression" of a military intelligence report on the Chinese

Communists in July, 1945. Acheson contended in reply that in general the concessions in the report supported the policies which the American government was then following toward the Chinese Communists instead of providing a new basis for criticism

of those policies. After discussing the Judd charges, Acheson indicated that he would like to shake off henceforth the controversy over past policies in China and concentrate on the problem of building new policies for the whole Far East.

## Health for All

### OVERWEIGHT

The best reducing exercise, it is said, is moving the head from right to left and then back again whenever we are offered a second helping of food at the table.

This implies that overweight is usually due to over-eating. While there are some cases of overweight caused by glandular trouble that only medical treatment can correct, most fat people put on extra pounds simply because they over-ate or ate too much of the wrong kinds of food.

The body is like an engine that requires a certain amount of "fuel" each day to operate efficiently. When it gets more fuel in the way of food than it needs or can use up, it stores this fuel in the form of fat. To lose its surplus weight, the body must burn up more fuel each day than it takes in daily in food.

Where overweight is due to wrong eating, heavy people are usually the ones who have trouble cutting down on fattening foods. It is easier for most people to lose weight during the hot summer months because their appetite demands less of the heavy, fat-producing foods than it does in cooler weather.

The person who is seriously overweight and needs to lose a great number of pounds should do so under his doctor's direction and supervision.

Those who diet must make certain they are eating enough of the right foods to keep them looking and feeling well. The fat person needs the nourishment found in milk, fruits, vegetables, and lean meats as much as anyone else. But he can and should cut down such foods as sugars, fats, and starches which supply a lot of fuel—and, therefore, fat—but are low in the minerals and vitamins that the body requires to keep well.

Overweight is not a direct cause of death. But too much flesh, especially in adults and older persons, can cause a needless strain on the heart and the circulatory system which can lead to serious illness and death.

The overweight person who reduces wisely will find his reward in looking and feeling better.

## Milk Hearings Slated On Fixing Price of 1-A

Washington, Aug. 25 (AP)—The Agriculture Department has scheduled public hearings in New York and Vermont cities to consider proposed changes in the formula for fixing the price of class 1-A milk in the New York marketing area.

Places and dates for the meetings, announced by the department yesterday are:

Olean, N. Y., Sept. 19; Corning, N. Y., Sept. 20; Oneonta, N. Y., Sept. 21; Rutland, Vt., Sept. 23; Malone, N. Y., Sept. 26; Canton, N. Y., Sept. 27; Watertown, N. Y., Sept. 28; Syracuse, N. Y., Sept. 29; and New York city, Oct. 7.

A special committee, composed of faculty members from colleges and universities in the New York milkshed, has recommended a formula under which the price could change from month to month.

The committee's proposals, announced last February, will be submitted to the meetings.

Producers now receive \$5.24 a hundredweight (approximately 47 quarts) for class 1-A milk. This is chiefly the fluid milk which supplies the New York area.

## Ontora Schools To Open Sept. 6th

Ontora Central School officials announced today that all schools in that district will open September 6, the day after Labor Day.

Officials of the district reached that decision after consulting with Dr. Robert H. Broad, county health commissioner, concerning the advisability of delaying the opening of school because of the high incidence of polio.

Dr. Broad told the school board that schools should open as scheduled "unless a serious emergency arises between now and the opening of school," officials said. In the event of such an emergency, Dr. Broad said he would issue instructions to school officials.

The Ontora Central School Board of Education also announced the only change in the teaching staff is the addition of Mrs. Phyllis Howland of Lake Hill, to replace Mrs. Selma R. Hill as teacher in the Willow school.

## Real 'Big Top' Setting Planned for Church Fair

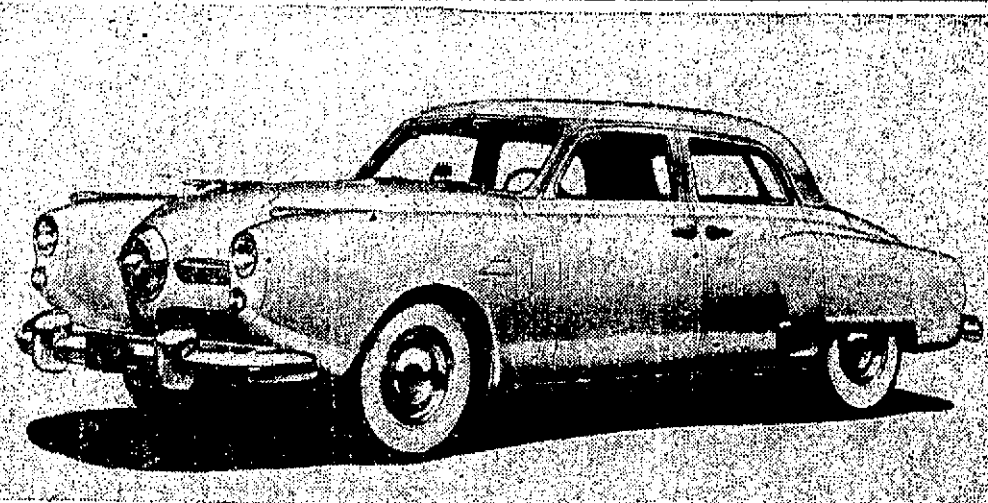

There will be real echoes of the "Big Top" at the Circus Fair of the Fair Street Reformed Church when it opens for two days Thursday and Friday, September 8 and 9.

This was learned last night at a final meeting of the fair committee when it was announced that there would be a real merry-go-round, real clowns, special novelty acts, a magician and games for young and old in addition to the colorful booths.

The first evening of the fair, which is the 15th annual event, there will be a dinner served by the Service Club and Friday evening there will be a cafeteria supper served by the Endracht Guild.

The fair grounds will be colorful. Weeks of preparation have gone into the building of the various displays and the physical part of the fair promises to be gay and unusual.

Blue, black, and green are the three colors used in painting a U. S. \$1 bill.

## Man in Army Clothes Called Gas Suicide

New York, Aug. 25 (AP)—A man about 20 years old, wearing army clothes but without any insignia, was found dead of gas poisoning today in a Manhattan apartment.

The man registered as August Jockel of "Long Island," police said, and his army cap bore the name Jockel, as did a card in his possession. A draft registration card, however, bore the name Walter T. Wittenman and the address 25-92 50th street, Woodside, Queens. It was dated September, 1948. The address 32-79 38th street, Long Island City, was on the card which had the name August Jockel.

A neighbor who detected the odor of gas from the third-floor apartment at 318 West 52nd

street summoned the landlady, who entered and found three jets of a gas stove open, police said.

The young man paid \$22 a week's rent for the apartment when he rented it Tuesday, police said, and later asked neighbors how to light the oven, saying he planned to cook them a chicken dinner.

He was described as blonde, with blue eyes, of fair complexion, and five feet, 10 inches tall and 150 pounds.

## Nuns to Leave Cloisters To Spread Catholic Faith

Vatican City, Aug. 25 (AP)—The Vatican has initiated a revision of the cloistered religious orders to allow the hitherto secluded nuns to go out in the world and spread the Roman Catholic faith, Vatican sources said today.

The informants said the change was undertaken at the request of

church authorities of many countries and will be completed in about two years.

One of the principal objects, these sources said, will be to ease the medieval rules which confined the nuns to their convents. Those who desire will be permitted to take up outside church activities, such as teaching, and the convents will be made accessible to visitors.

A central council chosen by the orders will be created to establish liaison among the cloisters and carry out revisions on a uniform basis, the informants said. It is planned to equalize the economic burdens of the various orders, some of which are much better off than others, nuns also will be allowed to transfer from one convent to another for reasons of health.

It was emphasized, however, that nuns who desire to continue a contemplative life, withdrawn from the world will be able to do so.

During 1948 at least one resident on every sixth American farm had an accident involving one day or more lost from regular activities.

WAITT'S 'DOUBLE-ENTRY' DEAL

Maj.-Gen. Alden H. Waitt, suspended chief of the Army Chemical Corps, now has confirmed by his own Senate committee testimony that he dictated a secret memorandum branding as incompetent eight men who were eligible to succeed him.

He says he prepared this document in the office of James V. Hunt, alleged peddler of influence among government officials. It was turned over to Maj.-Gen. Harry Vaughan, President Truman's military aide, presumably for the guidance of the President in picking a successor.

Waitt declares this memo was his "honest evaluation" of his subordinates. But it was in violent contrast to the praiseworthy accounts he set forth in official Army "fitness" reports on these same officers.

Furthermore, he says, he sat as one member of an Army appointment board which recommended three officers as his successor, including two of the eight he had secretly criticized.

This strange resort to a sort of "double entry" system of appraisal, this combination of out-in-the open maneuvers and behind-the-scenes techniques is perhaps the most shocking revelation yet to come out of the "five per center" inquiry in Washington.

The "double entry" evidence was what led Secretary of Army Gordon Gray to suspend Waitt, and we think with good reason. Waitt will not find it easy to convince authorities in the Department of Defense that he should ever get his old job back.

Apparently that is what he wanted most—another four-year term. And he may actually have been the best man for the post. But his devious methods of soliciting favorable consideration ought to have eliminated him permanently as a possibility.

Of course there was more to the incident than simply Waitt's ambition to stay in office. He has confessed to the committee that he was using his influence to "expedite" a contract desired by one of Hunt's clients. That Hunt and Vaughan were closely linked with Waitt's job maneuver makes it particularly questionable, for testimony has thrust them both deep in the influence game.

We cannot stop at merely deploring the activities of these wielders of influence. It is important to understand them and the atmosphere that produced them.

Are we dealing here with weak figures of men? Or are we seeing the corrosive effect of power—power perhaps held too long by one group? The nation needs to know. The true story of the five per centers, set in its full framework, may govern voters in elections to come in 1952 and beyond.

For if these are indeed the corruptions of power, the American people might decide that Thomas Jefferson's idea about rotation in office is pretty sound stuff.

The second change of the year in the government of Syria occurred with a blunt violence which is jolting to people accustomed to electing their governments and having them stay put after being elected. It can only be pointed out that the Syrians, along with people of a number of other nations which are trying out elective processes, are not yet quite accustomed to elections as we are.

NAZISM REVIVING

An expert on Nazism says that it is reviving in Germany. This is the novelist Thomas Mann, who fled from the Hitler regime and is now an American citizen. Returning from a trip to his native land, he reports himself concerned at the revival of the Nazi spirit. Everywhere he heard people say, "Under Hitler we were much better off."

Of course they were much better off materially, because they lived on the stolen wealth of the rest of Europe. Anyone would find his financial problems eased if he could rob his neighbors at will.

Because the Germans do not realize that they lost the war and why they lost it, Mann thinks that every German school and post office should have a placard which would say this:

"Why are your cities destroyed? Why is

'These Days'

By GEORGE E. SOKOLSKY.

THE UNDERBELLY OF EUROPE

World War I started in the town of Sarajevo in what was then called Serbia but is now Yugoslav. Serbia was the most intensely nationalistic country in the Austro-Hungarian empire. Today, Yugoslavia is the most intensely nationalistic country in what Stalin regards as the Soviet empire. Not only has it pushed itself into the Iron Curtain; it may become the stage for the first military struggle between Russia and the western world.

There was a possibility at one time that the west and Russia would come to blows over China. The United States action that possibility by sacrificing China to Soviet Russia. That sacrifice was made on the political principle of "arens motu deluge."

That principle of statecraft, however, cannot be applied to Yugoslavia because its final absorption by Soviet Russia would imperil Italy and therefore France and therefore western Germany. In a word, all that we have done since 1938 may collapse and we can find ourselves alone in the world, therefore, the climatic argument between Tito and Stalin may be the prelude to World War 3.

Tito is, of course, a Marxist, trained in the Red army in Soviet Russia and once a citizen of that country. He was placed at the head of Yugoslavia by Stalin. The western Allies had supported Mikhailovich but, at the behest of Stalin, Roosevelt and Churchill dumped Mikhailovich, who was eventually killed. Tito, like Dimitroff in Bulgaria, Pauker in Rumania, Mao Tse-Tung in China represented the "people's democracy" which Stalin established. As a matter of fact, these people's democracies formed together into a union, create a counterpart to the United Nations and may, in time, destroy it as the League of Nations was destroyed.

Unfortunately for Soviet Russia, Tito faced Yugoslav nationalism realistically. It could not be suppressed; therefore he became part of it. Also Yugoslavia, an agricultural country, was not willing to accept the total nationalization involved in Marxism-Leninism. Tito compromised with that and tore a rent into the Iron Curtain. The central committee of the Polish Workers' Party stated the case as follows:

"To the extent that the basic socio-political reforms established in the framework of people's democracy are carried out, the countries of people's democracy progress toward tasks directed toward the attainment of socialism, which require a further sharpening and deepening of the class struggle."

Tito, from a Communist standpoint, has committed certain "rightist errors," which they describe as the "Bulharin Doctrine," the peaceful evolution of capitalism into socialism. Therefore Stalin wants to get rid of Tito, to start a revolution even to start another world war of him. For if Tito should succeed, the Soviet empire can collapse into a congeries of nationalistic states held together loosely by Marxism.

Stalin, at the beginning of his career, believed in nationalism. His first office in the Soviet hierarchy was commissar of nationalities and he did much to stimulate national consciousness at that time. Now, however, he finds nationalism a nuisance and a weakness. Ruth Amende Rose, in a study of this problem in "World Politics" says of it:

"Prior to the spring of 1948, Soviet publications constantly stressed the devotion of the U.S.S.R. to the principles of national independence and the equality of all nations, large and small. However, this emphasis on national sovereignty and the disinterested friendship of the Soviet Union has coupled with an equally strong emphasis on the 'sacred brotherhood' and friendship of all the Slavic peoples, in support of which the Soviet press marshaled increasing numbers of quotations from groups and individuals in the 'backward' Slavic states who protested their loyalty to Stalin as the 'great teacher,' and their determination to follow in the footsteps of the U.S.S.R. along the road to socialism. We are endeavoring to persuade the Slavic democracies that their independence is secure, the U.S.S.R. sought to induce them, by sentiments of Slavic kinship and by the example set by loyal party members, voluntarily to accept Soviet hegemony."

Tito could not accept Soviet hegemony without losing his position in Yugoslavia. His people want to be independent and he will either keep them independent or they will overthrow him. He has chosen nationalism in preference to Stalinism. One way or the other, it may mean war.

ELECTRO SHOCK TREATMENT

Just as we were becoming discouraged with the great number of mental patients in hospitals along came the shock treatment. First insulin, then mazaol, and finally electroshock. The shock treatment while not clearing out our mental hospitals has made the building of very large mental hospitals not so immediately necessary.

Of the three methods of shock treatment, electroshock is now the most popular with patients and physicians as the treatment lasts less than a second and the patient has no memory of it afterwards.

While electroshock treatment is the safest method of shock treatment, a new method that is still safer is the injection of 5 cc of coramine into a vein before the electroshock treatment is given.

In the "American Journal of Psychiatry," Dr. H. D. Fabing reports the results by this use of coramine (nikethamide), just before the electroshock treatment with 100 consecutive patients at the neuropsychiatric department (brain structure behavior) at the Christ Hospital, Cincinnati.

The method has proved of value in reducing wild excitement quickly and dramatically with as few as one or two treatments. It has also proved of value in cases of confusional excitement, melancholia, extreme anxiety, double personality, delusions and hallucinations.

It is assumed that coramine, used by many physicians in collapse and failing heart, excites the higher levels of the nervous system chemically; the electroshock stimulates excites these structures electrically. Giving these two stimuli together produces an excessive stimulus which, instead of exciting the patient actually quiets him.

When we think of patients suffering with these various mental symptoms, being helped by one or two treatments of coramine and electroshock, replacing prolonged treatment, and the safety of using such a "restorative" drug as coramine to strengthen the patient physically before taking the electroshock treatment, we realize the extent of this forward step in the treatment of mental cases.

your country divided and occupied? Because you lost the most destructive war in history. Who led you into this war? Adolf Hitler and the National Socialist regime.

This is well enough as far as it goes, but another question and answer should be added. "Who was responsible for keeping Hitler in power despite his known crimes? You, the German citizen." This is a point which escapes most Germans; most unfortunately it escapes most Americans.

Somehow We're Sort of Losing Interest in Buying

The Washington Merry-Go-Round

By ROBERT S. ALLEN

Washington—An extraordinary backstage scramble is taking place within the Congress of Industrial Organizations.

While the anti-Communist Phil Murray leadership is preparing to boot out the leftist unions of the C.I.O.'s Cleveland Convention, the latter are racing to beat this move to the punch with a walkout of their own.

The "lefties" have called a meeting in New York on August 30. Inside word is they will stage a bolt and proclaim the establishment of a national labor organization of their own. Informed sources say this is the new Communist Party line.

Call for this powwow was issued by the following: United Electrical Workers; Food, Tobacco and Agricultural Workers; United Public Workers; United Furniture Workers; United Fur Workers.

Significantly not in this list is the International Longshoremen's Union, headed by Harry Bridges. Although the leading C.I.O. leftist, Bridges can not take his union out of the C.I.O. An attempt would split it wide open. He is already under powerful attack within the organization.

However, it is reliably reported that Bridges has a leading hand in the decision that convinced the leftist meeting. If he doesn't show up personally, he is certain to play a decisive role behind-the-scenes. He is the No. 1 choice to head their new leftist labor organization.

Meanwhile, Murray and his anti-Communist leaders are settling the stage for a clean break with the "lefties" at the Cleveland convention. Regardless of what the latter do at their August 30 meeting, the C.I.O. chiefs intend to purge their rolls in Cleveland.

Arkansas and Alabama aren't sure they haven't grounds to be smitten at Rep. Frank Boykin. The round Alabama became excitedly lyrical when he met Arkansas' gorgeous entry to the "Miss America" contest. Rep. Brook

John L. Lewis's two-month-old coal slowdown has had no effect on industry so far. Stockpile reserves have gradually diminished,

but all consumption demands have been met. Only group so far hard-hit is small mine operators, particularly in West Virginia.

They have been unable to operate profitably on a 3-day basis and a number of them have been forced to shut down. This has thrown hundreds of miners out of work, through no fault of their own or the operators.

While Lewis's slowdown has caused no general adverse effect as yet, difficulties are anticipated when cold weather sets in. Such steel plants as have been digging into their coal reserves are becoming uneasy. Similarly, retail dealers are warning customers to order now.

Political Influence No Barrier to Johnson in His Slashes to Save U. S. Money

By DAVID LAWRENCE

Washington, Aug. 25—Louis Johnson, secretary of defense, bids fair to become a national hero. He is the first person in the executive branch of the government—or in Washington for that matter—who has exhibited the courage to cut expenses even though it hurts on the political side. Congress itself has fallen down miserably on that score at this session.

Secretary Johnson has done what nobody else has done here in the memory of observers whose recollections go back over the years. He has ordered cuts in those districts which up to now have been strongly fortified with political influence—the districts where army posts, naval establishments and air force installations have been located.

For several months now, as the cry for a balanced budget has been growing louder and louder from the country, the only answer has been more and more spending.

For several months also the Truman administration has been urged not to make cuts because it would add to unemployment. In fact, the executive agencies have been ordered to increase employment by channeling governmental projects into areas where unemployment to employment ratios are largest.

But now the secretary of defense has tackled the biggest single concentration of political power—the congressmen and senators of both parties who up to now have resisted any attempts to cut down work in their constituencies.

It is true the blow falls heaviest on civilian employees, but it has been pointed out in these dispatches recently that the overhead remaining from the war is tremendous and that economies are possible therein without impairing the effectiveness of the armed services. There are billions to be saved by taking out the waste in the armed forces.

If "unification" means this kind of courageous action, it will be applauded by the country because, as Secretary Johnson says, he is opposed to making a V.P.A. out of the defense establishment.

Historically the armed services have been well aware of the waste this waste but the men in uniform, dependent as they are on the good will of Congress, have always been reluctant to recommend the abandonment of a navy yard or an army post, for example, in a state where an influ-

ential senator is located. Certain areas have been regarded as untouchable because it would hurt politically.

If, somehow, the example set by Secretary Johnson could be followed in other agencies and the so-called "pork barrel" idea could be eliminated from the federal budget, there would be every chance of a balanced budget at a reasonably early date.

It is conceivable that if Secretary Johnson gets the backing of the country, as he should, a stimulus will be afforded to other cabinet officers to make cuts in other parts of the budget which are now plainly protected by political considerations.

Significant, to be sure, is the applause that has come from members of Congress who have been in the forefront of the economy drive—as, for instance, Senator Byrd of Virginia, Democrat, and Senator Foraker of Michigan, Republican. Other Republicans and Democrats congratulated the secretary of defense.

Mr. Johnson anticipated repercussions. So he invited all members of Congress whose districts are affected by the cuts to come to his offices to get an explanation of what was being done in order that they, in turn, could explain the matter to their constituents. This in itself was one of the most unusual as well as audacious moves that he could have made under the circumstances.

Instead of waiting for the protests, he met them head on. Members of Congress will do a lot of criticizing as they will doubtless feel it necessary to show their constituents how hard they are working to prevent the cuts from taking effect. But with a nationwide support for what is being done and with many districts being affected very much the same way, it is unlikely that the political pressure exerted will be of any avail.

As the figures stand now, there will be a displacement of 76,000 civilians in the navy, 41,000 in the army and 18,000 in the air forces. Besides this, 12,073 reserve officers will be put on inactive duty, thus cutting that payroll material-

ly.

The truth is the whole military establishment has remained in an overextended condition on the civilian side since the war because of political influences or fear of antagonizing politically influential people.

AS PEGLER SEES IT

By WESTBROOK PEGLER

New York, Aug. 24—For years I have argued that the New Deal, known as the Square Deal in its advanced stage, was Fascism. Huey Long is said to have remarked that when Fascism came it would come disguised as the anti-Fascist. His own share our wealth program certainly was Fascism but he never bothered to deny that it was. He concentrated on positive salesmanship through hypnotism. In this he imitated Mussolini and Hitler. So did Roosevelt. They all lighted the skies with that personality, trying to defy themselves, the criticism of their programs would be turned off as blasphemy. Such little as we know of Russia does not indicate that Lenin, Trotsky or Stalin stooped to cultivate the emotional favor of the people. Dealing with clock they used the methods of the Nazis. That is the difference between Bolshevism and the Fascist variations of the same thing. It is not an important difference.

"The Italian nation is an organism having ends, a life, and means superior in power to the single individuals or groups composing it," said Benito Mussolini. "It is a moral, political and economic unit."

Roosevelt in honesty could not have found fault with that. In so many words he never did. He constantly held that the individual person was only part of a mass man. He invited the individual to join union, to sacrifice his individuality and become a force in combination with thou-

sands of other abandoned personalities. If the individual refused, Roosevelt would force him to. That compulsion would be expressed in unemployment enforced by the union blacklist and by physical and moral terror the same as the Black Shirt and Brown Shirt mob actions. A snob and a selfish man himself, he never understood that some of the common man had personality and wanted too. People were just "the masses" to him. They had B.O. It is ironic that any New Dealer or Fair Dealer can have the gall to decry brutality by shrouded figures in Alabama. These attacks are trivial by comparison with the wild insurrections, the bloody onslaughts and unnatural horrors which the C.I.O. employed in its organizing days to conquer the manhood of citizens holding out against the goons. If I were a southern man, having read the threats of the C.I.O. to "invade" the south in the old manner of Michigan, Ohio and Pennsylvania, I would join the Klan for defense.

The Hitler Black Shirts and German Brown Shirts were reproductions of the Ku Klux Klan of the Reconstruction. The best people of Italy had been abused by the insatiable rabble which predominates in any population. At last, they drew together and came to a stand. It was the same in Germany. The old Ku Klux never aspired to be or to dominate a government. It established a code and a fear which

Questions-Answers

Q—Who composed the music for "Home Sweet Home?"

A—The words of this song were written by John Payne for play, "Clara, the Maid of Milan." The play was converted into an opera by Sir Henry Bowley Bishop and first produced at Covent Garden Theatre, London, in 1823.

Q—What are the abecedarian Psalms?

A—They are the Psalms in which the verses of successive portions are arranged in alphabetical order such as the 119th.

Q—Have scientists established the fact that the temperatures can be estimated from the chirps of a cricket?

A—There is a definite relationship between a cricket's chirp and the prevailing temperature. The rate of chirp depends upon the temperature. The rapidity of its chirps is so affected by heat and cold that a formula has been devised for getting the temperature.

Q—What is the nationality of Michael Arlen?

A—Michael Arlen is a pseudonym. The British novelist's name is Dilekhan Kuyumjian. He is of Armenian parentage.

Q—Is it true that a person comes up three times before drowning?

A—This popular notion is a fallacy. A person may come up many times, or not at all, depending upon various conditions.

So They Say...

I am sure that Mr. Truman is against the Stalinist state or mass-knuckled state. Mr. Truman is against Stalinism; that he doesn't know and doesn't believe that he carries the malignant germs of the police state around in his ideologies. But he is the "Typhoid Henry" of Stalinism.

—Hugh D. Scott, Jr., former Republican National Chairman.

My experience proves that the atom can save life as well as destroy. Today we stand on the threshold of a whole new era of scientific progress.

—Advertising executive I. S. Randall, who has used radioactive iodine for a cancer condition.

We are the only one of the 12 nations in the Atlantic that who has the atomic bomb. We are the only one capable of carrying out strategic bombing.

—Gen. Omar Bradley, Army chief of staff.

It is time that we realized that a government, like a family, will go broke if it continues to spend more money than it receives.

—Republican national committeeman J. J. Ross Todd.

We fell for that (a program of disarmament) once. I think there is peace for the world only in a strong, armed America.

—Secretary of Defense Louis Johnson.

## Do You Remember

by SOPHIE MILLER

An Albany subscriber learning of the New York State Freedom Train Kingston arrival on August 16-17 sent the following Albany view card on which is painted "Albany is the second oldest city in the U.S.A. and since 1791 has been the capital of the Empire State. It was a strategic center during Colonial Days, and it was here in 1754 that steps were taken by the Colonial Congress to consider a federation of the colonies." Kingston of course was the first capital of New York State.

A discussion came up about the Delaware avenue hill landslide on the old trolley tracks, which hemmed in a trolley car on the Kingston Point side. Who remembers when it happened? Perhaps there are some eye-witnesses who were on that stranded trolley car. Was it around the 1920's?

There seems no end to the interest shown in the Vanderlyn painting "Aladdin" at our Senate House Museum. A note from Michael Schwartz, whose son at one time was connected with the musical department of Bard College. At that time Mr. Cuylen-dall being a neighbor, evidenced the musical young man the use of his excellent piano during his visits with his parents. That is why the father was so interested in the "Aladdin" article as he had seen that painting many times on the dining room wall and wrote me "Mr. E. Cuylen-dall told me when showing me the portrait of the mysterious lady by J. Vanderlyn, that it was sold to him under the strict stipulation that he was never to try to find out who the subject of the picture was. He had the opportunity to find out, true to his word, he made no use of it." Mr. Schwartz explained. According to Mrs. W. H. Hilton, this painting was done in Paris in 1812, so perhaps the lady was a European. Now 137 years later the artist's work remains as brilliant as when first painted and the lady remains nameless.

Several people have asked about where this painting is displayed. I explained "just go to the Senate House Museum, and enter the room on the right, 'Aladdin' faces you as you enter. It is so striking, even in its colorful background landscape that you are drawn to it. This painting alone is worth a trip to our most convenient museum."

I was asked where the Catskill mountains got its name. According to explanation brought to my attention the first name for the mountains was "Kaatskill" given by Hendrick Hudson during the last week of September, 1609. The word itself is Dutch first syllable "Kaats," meaning "wildcat" second, "kill," meaning small stream or creek. This translated into English becomes Catskill. Word for word in Dutch it would be "Wildcat Creek Mountains." Wildcats and bobcats or lynx au-

th were really running wild for years in the mountains and feared by the colonists. But on the other hand, fortunes were built through the fur of these wildcats. One of these fortunes were that of the first John Jacob Astor who it is said died his fur

trading here and later invested his profits in Manhattan real estate.

## Restores Kremlins

Moscow (AP) — The Moscow Kremlin is only one—and of course

the most famous—among its many kremlins. A "kremlin" in old Russia was a fortified center of a town, usually, crested on a hill or elevated area, and walled with wood piles or brick. It was the center of defense of the city—and in the early days often con-

tained the whole city—when the Mongols, Tatars or other enemies attacked. In connection with a general campaign to restore historical monuments throughout the country, in many centers restoration work has been undertaken on local kremlins.

## Sinks in Grave

Atthol, Mass., Aug. 25 (AP)—Reading a funeral service, the Rev. Gordon C. Capen of Orange Methodist Church had a sinking feeling. He said he tried to keep his voice level, however, so that his predicament would not disturb the solemnity.

He succeeded. It wasn't until the service was over that mourners noticed the clergyman had sunk to his knees in earth. Part of a grave adjoining the new one had caved in.

Channel Swim Canceled  
Calais, France, Aug. 25 (AP)—Danish swimmer, Jane Andersen crossed the English Channel twice today—by boat. The 34-year-old former waitress who now is a gym teacher, left Dover early this morning for Cap Gris Nez, France, where she expected to attempt to swim the channel. Newspapermen gathered at Chatelet Beach near here where the boat carrying Miss Andersen arrived and weighed anchor. A short time later the boat signaled the channel swim had been abandoned and the party sailed back to England.

## Report Modified

Canton, Aug. 25 (AP)—The official Chinese Central News Agency said today the toll in an ammunition ship explosion at the Formosan port of Takao Tuesday was eight dead, 30 critically injured and 180 slightly hurt. Earlier the agency had said the total of dead and injured was expected to exceed 500.

## Letters Commend B.P.W., Workmen

Letters commending and thanking the Board of Public Works, its officials and employees, for assistance to local organizations, were read at a meeting of the board yesterday.

One addressed to Mayor Oscar V. Newkirk from Albert Kurdt, as secretary of the Ulster County Agricultural Society, thanked "all those who voluntarily helped make our county fair a success." It thanked other departments and "particularly the Board of Public Works and police department."

The letter stressed that "it would be impossible to conduct a free fair without the assistance we received."

Another letter by Kurdt in behalf of the Firemen's Convention Committee, addressed to Ernest A. Steuding, superintendent of public works, thanked him and the department for assistance given during the recent convention and parade of the Ulster County Volunteer Firemen's Association.

Kurdt also thanked Superintendent Steuding separately on behalf of the Ulster County Agricultural Society and another letter from Agnes B. Powers, superintendent of the Home Department of the county fair, thanked him for his assistance to her department.

Another letter of thanks was from Neal Bruck, commodore of the Kingston Power Boat Association, and thanked the department for its assistance in conducting the Eighth Annual Regatta July 30.

Bertha M. Baylor in a letter to

Steuding thanked him "on behalf of property owners on Clinton avenue between Main and John streets for promptness in attending to our street."

## Wire Tap Figure Faces Drunken Driving Charge

Mineola, N. Y., Aug. 23 (AP)—Ferdinand A. Gehrhardt, whose name and auto agency have figured in a Brooklyn wire tap case, was charged with drunken driving here yesterday. He pleaded innocent.

The wealthy president of Brooklyn's Kings County Buick, Inc., was arrested Tuesday night after his car backed into another at nearby Valley Stream, N. Y.

Arresting officer quoted Gehrhardt as telling them "I dare you to lock me up." He was held overnight after Dr. Henry N. Dean, police consultant, said he was drunk.

Gehrhardt, natty and dignified, pleaded innocent when arraigned before District Court Judge Leslie Ekenberg. The court warned him conviction could cost him his driver's license.

Judge Ekenberg set trial for

Sept. 6 and released Gehrhardt to his attorney, James J. McDonough of Mineola.

The complaining witness is Norman W. Slayton, 20, of (217-06 131st avenue) Springfield Gardens, Queens. He said Gehrhardt's

new Buick convertible backed into his car. Damage was slight. Slayton was on leave from the naval air station at Atlantic City, N. J. With him was Jean Anderson of (115-79 220th street), Camden Heights, Queens.

A woman complained to an elderly man, who every evening walked his dog by her house, because the dog always paused by her new shrubs:

Man—I wouldn't worry. I always start around the block the long way, and by the time he reaches your bushes, it's only a gesture.

Quiet Woman (sitting next to her)—I don't clean mine. When mine get dirty, I just throw them away.

Whatever became of those pyramid clubs?

A man walked out of a hotel dining room where a civil club was speaking. A late-comer stopped him and asked:

Late-Comer—Has the speaker finished his speech yet?  
Man—Yes, he finished his speech shortly after he started, but he hasn't stopped talking.

## Rayburn Says House To Adjourn Tomorrow

Washington, Aug. 25 (AP)—Speaker Sam Rayburn said today the House will adjourn tomorrow until September 21 regardless of the Senate's refusal to approve an adjournment resolution.

"We are going away anyhow," Rayburn told his news conference. The House adjournment, he said, will be accomplished by passage of a simple resolution by which a few members of the House will agree to meet twice weekly until September 21 with the understanding that no business will be transacted. Such a resolution does not require Senate approval.

Rayburn said that procedure will be followed if the Senate does not reconsider its rejection of a resolution which would give the House a straightaway adjournment.

He said the Senate's action was "the first time in history" as far as he could recall that one chamber refused to agree to procedure approved by the other in respect to meeting. The action, he added, "certainly does not" promote comity between the two branches of Congress.

## Woman's Screams Put Bandits to Flight in N.Y.

New York, Aug. 25 (AP)—The screams of a 60-year-old invalid woman, her head injured by a pistol butt, routed two bandits from her Bronx apartment today.

The victim, Mrs. Rebecca Suderov, was taken to Morrisania Hospital.

She was critically hurt when she and her husband, Morris, 63, a jeweler, fought off two gunmen disguised as deliverymen. Mrs. Suderov was wearing two rings valued at \$12,500.

The gunmen came to the apartment door at 1186 Grand Concourse. One asked "where's the package?" when Suderov opened the door.

An unordered package had been delivered to the apartment and police believe this was part of the gang's plan.

"What's going on here?" Mrs. Suderov asked after getting out of bed.

One of the men drew a pistol and snapped "shut up, this is a stickup," and tried to tear the rings off her fingers.

Husband and wife struggled against the bandits. Mrs. Suderov screamed and the maid ran to a fire escape to call for help. Frightened by the racket, the gunmen fled.

Police said the gang may be responsible for several similar jobs in the Bronx.

paramount importance both to Europe and the United States.

"The change from a sellers' to a buyers' market has placed new emphasis on measures needed to strengthen and expand multi-lateral trade, particularly the means for rapidly eliminating the cost and trade disparities between dollar and non-dollar areas, removal of trade restrictions and broadening of areas of free trade."

While exports as a whole were back on a prewar footing, the E.C.A. said, trade among the western European nations themselves lagged at about 10 per cent below prewar.

However, the report went on, the first three months of 1949 showed a brighter picture than the preceding nine months; trade as a whole was 18 per cent above the average before the war while trade among the European na-

During the final demonstration he entreated her to speak into the microphone. The child made some sounds into the "mike" which the cheering audience interpreted as the word "Mama."

The report also took an optimistic view that the European inflation situation may be ended.

## Katsbaan Pastor Going to Texas

The Rev. C. J. Westhof, who has been minister of the Katsbaan and Blue Mountain Reformed Churches for four years, has accepted a call to the First Presbyterian Church of Whitesboro, Tex. He will preach his farewell sermons at the churches Sunday and leave next week for Texas.

The Rev. Mr. Westhof began his work at the Katsbaan and Blue Mountain churches the first Sunday in September, 1945.

During the four years of his pastorate, he has been active in community affairs as well as the work of the churches. He has been chairman of the Centerville Fire Company, a committee member of the Centerville Boy Scout Troop, a member of the Saugerties Ministerial Association for which he served one year as president.

The Rev. Mr. Westhof and family plan to leave for Texas next Monday. They will stop en route to visit their home in Michigan.

## Bronx Boy, 6, Missing All Night Found by Dad

New York, Aug. 25 (AP)—Six-year-old William Florio, Jr., missing all night from his Bronx home, was found today by his father, who had been searching for him since he disappeared from the street from his house.

William had been sought by his family and by more than a score of police since his disappearance shortly after 7 p. m. yesterday.

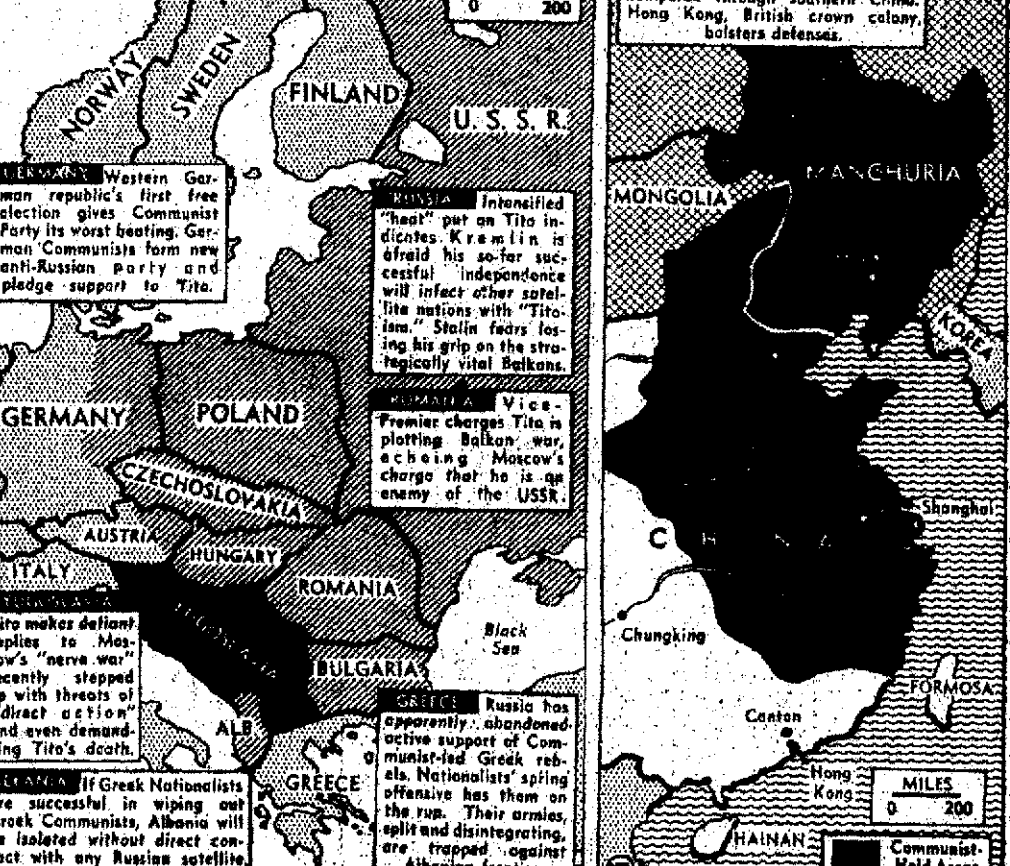

The searchers vainly combed the wooded section of the Bronx river and vacant lots near the vacant lots near the Flushing Meadows race track.

Returning vociferously from the all-night search, William's father said his son was found in the ground near the street.

Asked where he had been all the time, the child replied: "No place, daddy," and kept on digging.

## Brings Soviet Sentence

Berlin, Germany (AP)—A former inmate of the Soviet Gulag, sentenced to death by a Russian court recently, charged with failure to deliver the obligatory quota of his berry crop. In defense, he claimed Russian soldiers had trampled down his berry beds and trampled the fruit. He was sentenced to nine months in prison for "disparagement of the occupying power and senseless waste of rationed foodstuffs."

**REDS WORRY IN WEST, HAVE IT EASY IN EAST**—Map of Europe, left, spots symptoms of apparent worry in the Kremlin. But while Stalin's hope of easy Communist victories in western Europe has faded and his once-ideal Balkan bloc may be lagging at the seams, Communists roll relentlessly over eastern China, as shown on map at right.

## Democrats Begin Sales Talk on Farm Plan

Washington, Aug. 25 (AP)—Midwest Democratic leaders took on the job today of selling the administration's new farm plan to farmers.

Party officials of 16 states acknowledged at a conference, however, that it would require real salesmanship.

They undertook the assignment after giving fresh approval to the program conceived by Secretary of Agriculture Brannan and backed by President Truman.

The plan is aimed at providing lower prices for consumers and continued prosperity for farmers by means of a subsidy.

Congress, as well as some farm organizations, have been cool to Brannan's proposal. The House rejected even a trial run of it and the Senate is looking over other programs.

## South Florida Posts Alert for Hurricane

Miami, Fla., Aug. 25 (AP)—South Florida today was put on alert for a hurricane.

An erratic hurricane in the Atlantic had recurred to the west-northwest during the morning after following a northwest course for a time.

The new course caused Grady Norton, chief storm forecaster at Miami, to inform the northern Bahamas Island to take hurricane precautions and southern Florida to stand by for the alert.

The storm at 11 a. m. was 480 miles east-southeast of Miami, moving at 15 miles an hour.

Norton said the erratic hurricane apparently was under the influence of a high pressure system.

## Local Death Record

The funeral of Mrs. Ollie M. Stokes, 17 West Chester street was held at the Jensen and Deegan Funeral Home, Wednesday afternoon at 2 o'clock. The service was conducted by the Rev. Ervin W. Gietz, pastor of St. Paul's Lutheran Church, and was largely attended by many relatives and friends. There were a large number of floral tributes attesting to the high esteem in which she was held. Burial was in the family plot in Montrose Cemetery where the Rev. Mr. Gietz held committal services.

## See Chaos Coming

Strasbourg, France, Aug. 25 (AP)—Criticism that Marshall Plan aid is producing little permanent effect in Europe's economy marked the wind-up of the European consultative assembly's economic debate yesterday. Conservatives predicted without contradiction that Europe is in for economic chaos, social upheavals and even war if she cannot achieve economic unity before the recovery program ends in 1952.

## Five Cities Get Approval to Put Up New Houses

Washington, Aug. 25 (AP)—Five cities on Wednesday were granted official approval to construct 31,800 rental units for low-income families under the new public housing program.

The go ahead was given Detroit, Mich.; New York City, Yonkers, N. Y.; Raleigh, N. C.; and Orlando, Fla.

Detroit will build 10,000 homes; New York City 20,000; Yonkers 750; Orlando 300.

Except for Yonkers, the construction programs approved today will take two years to complete. The Yonkers project will be finished this year.

New York City intends to construct 10,200 units during the next 12 months and the remaining 10,100 in 1950.

Costs of the projects were not announced. Under the housing act the government is empowered to loan up to 90 per cent of a project's cost to local authorities.

## No New Polio Cases Reported in County

The county health department said today that no further polio cases were reported and the total to date this summer is still 31 cases.

Dutchess county, meanwhile, at last report had 32 cases. Poughkeepsie has 23 of these and the county has had two deaths resulting from the disease to date.

Greene county also reported its 21st case, and its total includes a 15-year-old victim of bulbar polio.

Favorable reports were given today on the five cases at Kingston Hospital, including the latest case, a three-year-old girl admitted to the hospital Tuesday afternoon.

## Financial and Commercial

New York, Aug. 25 (AP)—A slender string of demand tugged the stock market forward today.

Advances ranged to around a point, although the great majority moved in minor fractions. At the same time a liberal sprinkling of stocks either remained at Wednesday's final levels or backed down a bit.

Inertia was pronounced in the stock exchange, with business lending close to the slowest rate of the month or more.

Yesterday's market performance was somewhat similar, with prices tending upward after a three-day decline that culminated in a rather severe setback on Tuesday. The decline started late last week after the general level of prices had touched a high point of a summer rally and approached the 1949 high.

Packard was comparatively active for a while following news late yesterday that the board had voted a 25-cent dividend, the same amount paid in March. The price moved up 1/8 to 4.

**DADDY'S BEEN A-HUNTING**—The old nursery rhyme comes to life at Keno Hill in Canada's famous Yukon Territory. Barry O'Neill fits a nine-foot-long arctic wolf skin on his daughter, Angela, while his wife helps. Angela is the first white baby born in the area since the Klondike gold rush. The O'Neills typify the many young Americans and Canadians pioneering in the Yukon's new rush for lead, critically needed in both countries' defense programs.

## Russian Answer

New York, Aug. 25 (AP)—The Voice of America today broadcast to the Russians its own answer to a Moscow quiz program question. The question: "What are the fundamental characteristics of a people's democracy?" The Voice replied that it "people's democracy" is the name Russia has applied to Eastern European governments.

"Is not a democracy and does not belong to the people," Charles W. Thayer, chief of the State Department's International Broadcasting Division, said the chance to answer the quiz question was "too good to miss."

## To Play Ibsen in Norway

Oslo, Aug. 25 (AP)—Twenty-four American colored students will perform plays by Ibsen on Norwegian stages next fall. An invitation from the Norwegian government was issued through the Norwegian embassy in Washington. Theatrical circles in Sweden and Denmark have also shown interest in the project. The Oslo "Daily Aftenposten" said, "Norwegian cultural life is not a democracy and does not belong to the people." Charles W. Thayer, chief of the State Department's International Broadcasting Division, said the chance to answer the quiz question was "too good to miss."

## Patients Will Sneeze

New York, Aug. 25 (AP)—Continued federal government occupancy of Neponset Beach Hospital, Queens, for about 260 tubercular patients will be permitted until about next March, Dr. Marcus D. Kogel, commissioner of hospitals, said today.

## Quill Gives Warning

New York, Aug. 25 (AP)—Michael J. Quill, international president of the C.I.O. Transport Workers Union, threatened today a general subway strike if the city demands that T.W.U. members work on buses operated by the city on routes of the Triborough Coach Company in Queens.

## Still Critical

Miss Caroline V. O. Crosby, 86, of 209 Fair street, who was overcome by gas fumes in her home August 17, was reported still in "critical condition" at Kingston Hospital today.

## Assaults Modern Poets

London, (AP)—Earl Wavel, poetry-loving field marshal, says English poetry is in a bad way nowadays. Speaking at the annual meeting in the London Library, he complained about "the dark, obscure, discordant mutterings which pass for poetry in these days."

"I do not believe the fire of poetry has really died out of us," he said, "but I do not think the flame is very strong at the moment. The earl favors the old standards of English poetry. He once compiled an anthology called 'Other Men Flowers.'"

Hail World's Strikes  
Moscow (AP)—The newspaper "Trud" said that the increasing wave of strikes in the capitalist world testifies to the militant activity of the working class. A characteristic feature of many of the strikes, "Trud" said, "is

not only their bitterness and stubbornness but also the spirit of brotherly international solidarity by which they are permeated." The paper said the recent strike of the London dockers serves as a "remarkable example" of this. "Trud" said the strike of 24,000

Australian miners is among the larger strikes of recent weeks. It would be necessary, it said, "to enumerate almost the majority of the countries of the capitalist world in order to give an exhaustive list of the strikes which have been taking place in recent weeks."

## College President Says Students Not Spoiled by Reds

Champaign, Ill., Aug. 25 (AP)—Dr. Harold Taylor, president of Sarah Lawrence College of Bronxville, N. Y., told the National Student Congress last night that Communism is not corrupting American students.

Taylor spoke at the opening session of a 10-day meeting of the U. S. National Student Association (NSA) on the University of Illinois campus.

"Fear of Communist teachers in American schools shows a faithless attitude toward the student and an ignorance of the real situation," he told the 1,000 delegates. Taylor said it is only by assuming that students are responsible adolescents at the mercy of all ideas that one can argue for the political screening of college faculties.

"The student is suspicious of all dogma and all people who try to tell him what is true and what is false," Taylor declared. He added that a "diversity of controversial opinion" must exist if students will never grow to the social maturity they need to deal with the political questions of their age.

Taylor said NSA is "strong, liberal and full of new ideas, some of which may cut the hair of the academic profession."

Representatives of an estimated million college students from 350 U. S. colleges and universities are here for the association's second annual convention.

NSA officials predict it will be the largest student meeting ever held in the United States.

Among the questions scheduled for discussion are federal aid to education, academic freedom, discrimination and segregation on campuses, relations with foreign student organizations, and subsidization of college athletics.

## Linked by Cactus

Mexico City (AP)—The newspapers are getting pretty annoyed with the city planners. And even a lot of just ordinary Mexicans don't like the idea of planting cactus in the middle of a main street. It all started early this year when the city fathers decided to fix up the Paseo de la Reforma, which connects the best residential districts with the business section. It has wide parkways on each side and lots of shade trees. The planners turned the parkways into additional traffic lanes in the downtown section. They sacrificed the benches, repaved the street and put a narrow parkway down the middle. The benches, life-sized bronze statues of minor national heroes and three-foot classical bronze urns which he had lined the street, were re-erected farther

## Iron Curtain Breach

Luckbeck (AP)—A young German girl refugee from the Soviet zone succeeded in piercing the iron curtain and making money from it. In the British Zone resort of Travemünde on the Baltic, she set up a former Wehrmacht artillery range finder. For the equivalent of a nickel you may peep through and try to find out what goes on in the nearby Soviet Zone.

## Leaves From Boyle's Notebook

(By ED O'BRIEN for JIAL BOYLE)

New York, Aug. 25 (AP)—Adventure is where you find it.

And if that's an old saw, a man named Martin Rodgers has given it new sharpening. He looks for—and finds—adventure in the telephone book.

In the past two years Rodgers, uncle of "South Pacific" composer Richard Rodgers, has thumbed the Manhattan directory from A to ZZZZ, Inc., with sometimes startling results.

Among other things, he has found himself:

—Sitting in with Chinese musicians who were making the night hideous (to western ears) with strange instruments like the hu-k'in and the yung-ch'in.

—Dining with New York's homeless, hopeless men at the municipal lodging house.

—Helping dispatch tugboats in the New York harbor.

—Watching a strange dance in

which Albanian men plaster dollar bills on the foreheads of Albanian women. (He still hasn't figured out the story behind that one.)

Rodgers is a cheerful, pink-faced man with thinning grayish hair and humorous wrinkles at the corners of his eyes.

He doesn't look especially like an "adventure-hunter." He looks more like a teacher, which he is. He heads the physical education department of Thomas Jefferson High School in Brooklyn.

But this is his story. Let him tell it:

"One night a young lady and I found we had seen all the shows we wanted to see and done all the things New Yorkers are expected to do. We were in the mood for something unusual."

"On an impulse, we opened the 'phone book and ran down the listings until we came to something interesting."

"It was," Rodgers smiled at the memory, "The Chinese Musical and Theatrical Association."

"We called them up and they were very pleasant. They invited us to come and see them. We did. And we had a wonderful time listening to that weird music."

Rodgers and the lady, whose name is Grace Breckenridge, have not lacked adventure since that night. Nor are they likely to, with some 623,000 names in the Manhattan book alone.

"Once," Rodgers remembered, "we called the Moran Towing & Transportation Co., which operates most of the tugboats around New York."

"The night dispatcher, 'wavy up' in a building overlooking the harbor, was a fine fellow named Captain Jordan. He said he was lonely, and why didn't we come down."

"We did, and again it was enormous fun. We heard him talk by radio with one boat that was half-way to Egypt on a towing job."

"The captain offered to arrange for us to 'ride in a tugboat' then and there. But it was getting late and we decided we'd do that another time."

So it has gone with random calls to foreign restaurants, unusual churches, police stations, off-the-beat societies.

"People," Rodgers said, "seem pleased to find out that a stranger is interested in them. With," he added, rather dolefully, "one exception."

"One number turned out to be a society interested in Yoga, the Hindu system of deep concentration."

"They promised to send us their literature but they never did."

"However," said Rodgers, with a look of deep concentration, "I'm going after them again. We have a 100 per cent record otherwise, and we're not going to have it spoiled by any Yoga."

"The New Guinea spiny anteater is a mammal, yet it lays eggs. These are carried around in a pocket until hatched."

"I was out on the porch"

It pays to wait at least ONE MINUTE for them to answer

Resting in the hammock, busy in the cellar, washing the dishes—any one of a dozen things may keep the person you're calling from answering the telephone as promptly as she'd like.

That's why it's a good plan to wait at least one minute before you decide there's no one at home and hang up.

The chances are, by waiting just a little longer you may save yourself the time and trouble of making an extra—unnecessary—call.

Working always to serve the community better

## As Pegler Sees It

made peaceful living possible and then vanished.

On the contrary, the Roosevelt goons have pressed forward to command the government. The C.I.O. and the A. F. of L. became auxiliaries of the party which protected their brigandage. As auxiliaries of the party, they wrung literally billions of dollars from the workers and employers. They imposed sales taxes on butchered chickens, suits, hats, coal and musical records. The frank understanding was that they would spend as much as need be of the money so extorted to keep the Democratic party in power. This they have done.

While it is true that our terrorist unions have remained formally apart from the actual gov-

ernment it is nevertheless true that they and the administration are one. The next development, barring the election of Taft or perhaps Eisenhower or MacArthur in 1952, will be the formal adoption here of the British Socialist bankruptcy state.

The Fascists said that all work was a social duty and therefore was protected by the state. Control was exercised through the collective labor contract and state labor courts had the final power to settle all disputes.

We have the Labor Relations Board.

"The employer and worker shall bear a proportionate share of the cost of provident measures," the program of Fascism said. "The state shall make provision for provident measures."

What are "provident measures" but "social security in which em-

ployer and worker . . . bear a proportionate share of the cost?" Was it Fascism and National Socialism that we fought? If so, were we crazy?

## ULSTER PARK

Ulster Park, Aug. 25—Reformed Church, the Rev. Harry E. Christiana, pastor — Morning service Sunday at 9:45.

The Rev. and Mrs. Herbert Killinder have returned from a vacation of three weeks in Maine.

Many from this place attended the Ulster county fair and saw local Grange exhibits. The Subordinate Grange won first prize.

Mrs. J. Hudson Cole has returned from a visit of two weeks with her brother, the Rev. Edgar T. DeGraff and family of Chester, N. Y., and in Maine.

Miss Patricia Gendreau is visiting her aunt, uncle and cousin in Newburgh.

James Pearson of New York visited his place here on Saturday. His new house is almost completed.

Mrs. Margaret Gramsford and granddaughter, Miss Margaret Hier, have returned to Albany after spending a few weeks at their summer home here.

A lizard can grow a new tail if its original one becomes detached.

## SHOKAN NEWS

Shokan, Aug. 24—The Town of Olive public health nursing committee will hold a sale of home baked foods in the Shokan Post Office building, Saturday, August 27, beginning at 2 p. m.

Thomas Carpenter, Richmond Hill young man who has been employed during the summer, is spending a few days with his parents, Mr. and Mrs. James Carpenter.

Carolyn Saxe and niece, Elaine Nadeau, of West Hurley, were recent callers at the home of their relatives, Mr. and Mrs. Benjamin Van Steenburgh.

Raymond Wallace is expected soon to join Mrs. Wallace at their home in Ashokan. Raymond, a quartermaster in the employ of a large maritime concern, is returning from a voyage to Buenos Aires, S. A.

Otto Rast's residence has been improved by the addition of insulation throughout and the installation of electric service.

Otto's varied and numerous renovations during the past three years have made practically a new house of the one time William C. Shults homestead.

It is perhaps not generally known that up near Roxbury is the site of the schoolhouse where John Burroughs, naturalist and

author, and Jay Gould railroad tycoon and financier, were classmates in their boyhood days. According to the Catskill Mountain News, legend has it that in those school days the roles of the two notables were reversed: Gould wrote a poem for the future poet to save him from punishment; and Burroughs bought some school books from the future financier when the latter was hard up.

Later, as a young man, John Burroughs taught school, right here in the old village of Olive (a short distance below the present Ashokan depot), and also took as his bride Maria North, of the family of early settlers in that section along the Olive-Hurley town line.

Improvements in the village center include the partial rebuilding of the Thor Friedenholm and Frank Jackson front porches.

Lester Barringer, well known Krumville poultryman, was numbered among callers in the hub of the reservoir country Saturday.

Lester's big flock of black-Rock hens are doing right well at shelling out those rich brown eggs which are preferred by many Epicureans.

Edna Swenson of Hempstead is spending a vacation with her parents, Mr. and Mrs. Edwin Swenson of "Twin Maples." Miss Swenson, a recent graduate of

Hoffra College, expects this school year to teach at Levittstown, site of one of the larger Long Island real estate developments.

The Misses Aileen and Mary Claire Kiff of West Hurley, recently spent several days at the home of their uncle and aunt, Mr. and Mrs. Floyd Merrihue of the Ontario Trail.

Harold Carlson, local K.H.S. student, and several companions recently enjoyed a hike to the top of Tonn's Hook, smallest of the three Catskill peaks in this immediate section. The kids, informed by the old timer, George Giles, of a good trail just above the E. C. Bostock place, made the ascent without too much effort and from the crest found a view of the reservoir quite as satisfying as that from much higher peaks.

They also inspected the legendary Indian dancing floor—a great flat rock which in earlier centuries provided the locale for many a Redskin ceremonial. It was here, also, that the giant Chief Ashokan was slain by Chief Tingoras in a lengthy duel for the hand of a puleititudinous damed of the local Esopus Indian tribe.

Mr. and Mrs. Roy L. Brower and son, Clayton, of Kingston, spent Sunday afternoon and evening with relatives in Ashokan.

Mrs. Brower, the former Lena Merrihue, is a native of the old village of Broedhead, while her husband resided as a boy in the Temple's Pond section of Hurley.

Week-end guests at the home

of Mr. and Mrs. Thor Friedenholm were as follows: Mr. and Mrs. Cortland Lunar and Mr. and Mrs. Lee von Kennel all of Stone Ridge, and Ebba Andre, well known Kingston nurse, Mr. Lunar, a federal banning inspector,

formerly was connected with an uptown Kingston bank.

Founded in 1791, the Massachusetts Historical Society is the oldest such society in the United States.

## Today's Business Mirror

By SAM DAWSON

New York, Aug. 24 (AP)—The price of sugar may go up a little the first of the month. All concerned—except the housewife—have been doing considerable sparring the last few days. Some are trying to push it up. Others are trying to keep it down.

Politics, both national and international, are involved, and many conflicting interests—beef growers of the west, cane growers of the south, eastern refiners worried about vanishing profit margins, big food and soft drink makers predicting shortages and mounting prices.

The State Department is anxious to keep producers in either lands happy—Cuba and the Philippines, as well as Hawaii and Puerto Rico. The Defense Department wants an assured supply during any war. And the Agriculture Department is right in the middle, since it in effect tells American farmers how much they can plant and refiners how much they can import from other lands, thereby actually determining the price.

The new price most frequently predicted is 8 cents a pound at the refinery, up less than 1/6 of a cent a pound. That may not mean much of a change in your grocery bill, unless further price hikes follow. But bakers, bottlers, and food packers who buy sugar by the ton would feel it.

In sugar trade circles it is believed the Agriculture Department would like to see the price go even a little higher than 8 cents, in order to encourage more beet and cane planting in the United States. Washington not only wants to foster American agriculture, but also creates a healthy domestic sugar industry in case of war. Sugar, as a source of industrial alcohol, is one of the important raw materials of modern warfare.

Western and southern sugar farmers say that with sufficient protection they could go a long way toward supplying our needs. They think Cubans are favored over them.

The Cubans, of course, say they furnished us adequately in the last war, and that encouragement of the Cuban sugar industry would be good American policy. They also say they can produce sugar cheaper than we can.

The Hawaiian dock strike has kept most of the Islands' output from reaching west coast refin-

eries. But the sugar brokerage firm of B. W. Peyer & Co. believes the strike is not too important as a long-term price influencing factor on U. S. refined sugar. Peyer cites the U. S. sugar quota law of 1946, saying that if Hawaiian supplies cannot enter this market, the Hawaiian quota can be reallocated to other suppliers, such as Cuba and Puerto Rico, who currently have a surplus.

However, Truman M. Gill of Beeville, Texas, president of the American Bottlers of Carbonated Beverages, contends that if the Agriculture Department delays much longer in letting more Cuban sugar into the country, "it may well be that this Cuban sugar will have been sold in the world market."

The quota he objects to was set last December. It estimates American consumption this year at 7,250,000 tons. Gill says the country consumed 250,000 tons more than that last year and presumably this fall. He fears a shortage this fall that will force up the price his members have to pay.

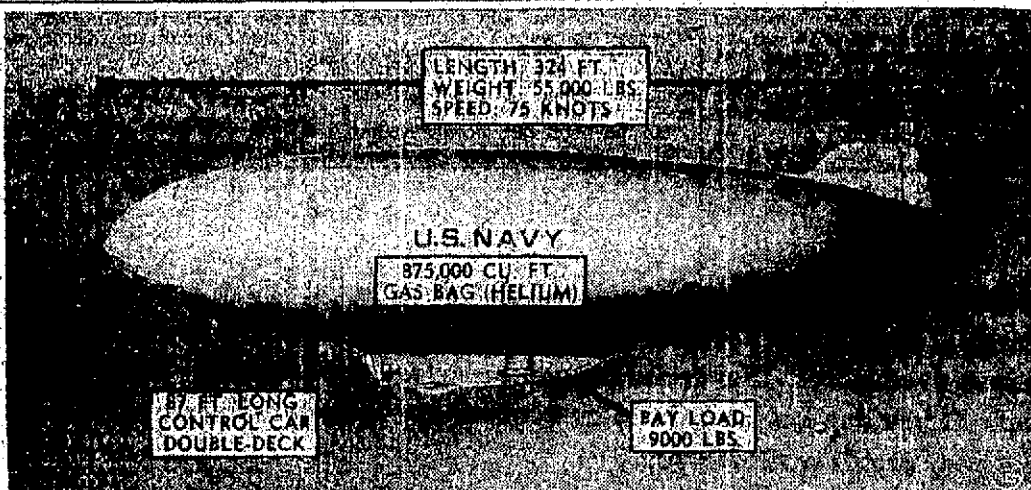

Sugar refiners here have been nervous about the price in the last month. Several times they announced they would ask 8 cents a pound, and then withdrew the quotation before it became effective. Some brokers think this may happen this time.

However, refiners insist they aren't making money at the present selling price of 7.85 cents, since for some time now they have been paying the year's top price for raw sugar of 5.50 cents a pound. This, they say, leaves them a lower margin than they had during the days of rationing and control.

So they have stopped taking orders at the old price after Sept. 1, when most refiners say they'll quote "the price in effect on the date of shipment or delivery."

If sugar does go to 8 cents a pound, it will be a little less than double the 1940 average wholesale price of 4.34 cents a pound. During most of the war years the price was set at around 5 1/2 cents, the same price that prevailed in 1934 when the sugar quota system was started.

But remember when, for a brief period in 1920, the price zoomed to 25 cents a pound? In less than a year it had plunged below six cents. It's things like that which give everyone concerned with sugar headaches.

**SNORKEL CHASER**—Above is an artist's sketch of the Navy's new giant blimp being built by the Goodyear Aircraft Corp. at Akron, O. Designed as the largest nonrigid airship ever built, the blimp's greatest value will be in long-range ocean patrols. It can hover over a given spot almost indefinitely in search of the underwater-breathing snorkel submarines. Vital statistics on the airship are included in boxes above. The blimp will be able to refuel in flight by dropping a fuel-line to a surface ship. It will be ballast by scooping up ocean water. Inflated with non-inflammable helium, the air giant will be equipped with an electrically-operated winch for air-sea rescue work.

### Light Love Stories Are Preferred by Grandmas

Albany, N. Y., Aug. 25 (AP)—Grandmas over 60 prefer to read light love stories with happy end-

ings. Grandpas of three score years like western stories best, with mystery "whodunits" a close second. These are the reading preferences of oldsters according to a survey of 150 libraries.

The results were made public today by Senator Thomas C. Desmond, Newburgh Republican who is chairman of the joint legislative committee on problems of the aging. "The older woman does not

care for tragic stories," Desmond said, "nor for books with sex emphasis, profanity or undue realism. Nothing grandpa's preference for westerns and mysteries, Desmond added. "Men over 60 want books with

plenty of action and a minimum of goosy romance." Desmond, who will be 62 on Sept. 15, did not report on the reading tastes of grandmothers and grandfathers under 60. He did point out, however, that "the 'peace of mind' type of book"

is more popular with those in the 40-50 age bracket than those past 60.

### Reports Uranium Find

Perth, Australia (AP)—A prospector claims he has found large

deposits of uranium ore in western Australia. W. D. Millar says his find is 80 miles west of Marble Bar—hottest town in Australia, 1240 miles northeast of Perth. Millar told a reporter a local assay showed about 40 per cent uranium content, which would make it the richest known deposit in Australia. Millar has applied to the Mines Department, Perth, for a 45-acre prospecting area. The site is in rough country near large known deposits of the mineral tar-

Woman and Companion  
Hold Up Hotel Manager

New York, Aug. 25 (AP)—A young woman in a low-cut black dress and a male companion held up the night manager of the Palm Hotel in Brooklyn last midnight and got away with \$60.

The manager, Berthold Bennett, said the woman picked up a screw

driver from the desk, pressed it against his chest and demanded the key to the cash drawer.

The holdup man, holding a hand in a pocket as if he had a gun, forced the manager and a guest into a back room and locked them up.

Bennett recalled that the robber couple had registered at the hotel recently as man and wife.

The hotel is at 82 Pierrepont street, in the Brooklyn Heights residential section.

But the memorandum warned that only if sufficiently large resources were discovered

Civil Service Men  
Operate Buses in  
N. Y. Strike Tieup

New York, Aug. 25 (AP)—City buses, manned by civil service employees, started operating today (5 a. m.) in parts of Queens to serve the 300,000 daily riders of the strikebound Triboro Coach Corporation.

Mayor William O'Dwyer ordered the Board of Transportation yesterday to start 40 city buses rolling this morning on ten new routes leading to Rapid Transit stations.

The service will increase to 52 buses by tonight's rush hour—all recruited from city buses idle during the summer slack season and operated by reserve city drivers.

Many of the city-employed busmen belong to the same union as the Triboro strikers—Local 100 of the C.I.O. Transport Workers Union.

A walkout of Triboro's 308 drivers and maintenance men started at 3 a. m. (E.S.T.) yesterday after the members rejected union leaders' recommendations for arbitration of a dispute over terms of a new contract.

None of the 125 buses on the company's 14 lines moved yesterday, and the customers had to find other means of transportation. The city stepped up service on three subway divisions and on three municipal bus lines serving Triboro's area. Taxis did a brisk business. And automobile pools were formed. Few people were reported stranded.

Triboro ordinarily operates 110 buses in rush hours.

Mayor O'Dwyer, declaring his order for city bus service "is not strike-breaking," said:

"Triboro's 'made substantial concessions in effort to reach a settlement and avert a strike. In addition, the company offered to submit all the union's demands to arbitration."

"While I recognize the right of the men to strike, I am also conscious of the city's obligation to provide transportation for its citizens."

Triboro's attorney, Bernard Shatzkin, said he is "happy that the mayor's resourcefulness has provided a means of lessening the hardship on the riding public."

Frederick Bradley, secretary of the union's Triboro section, said the mayor's action came as a "shock" and "in effect, is strike-breaking."

New York Guardsmen  
Near End of Training

Pine Camp, N. Y., Aug. 25 (AP)—National Guard and reserve troops from the metropolitan New York area neared the end of summer training maneuvers today following an inspection by the First Army commander.

Lt. Gen. Walter Bedell Smith

and five other visiting generals saw the 42nd (Rainbow) Division, New York National Guard, and the 77th Reserve Division go through field combat problems yesterday.

Smith presented the General Eisenhower Trophy to the 42nd Military Police Company in behalf of Eisenhower. The unit won the award in competition with all other M. P. companies in the New York Guard.

The troops will break camp early Sunday, completing their two weeks of training here and winding up the reservation's guard training program for the year.

## Treatment

Treatment for "hyoscyamine and hyosine poisoning is the same as that for atropine," the letter said. Victims must undergo a stomach wash "with five per cent tannic acid solution," or should be given "an emetic of mustard water," and ice should be applied to the head.

Artificial respiration should also be applied if necessary.

Other directions are to use "black coffee as a stimulant, and keep the patient warm and quiet."

Other information on the plant said it is a tropical annual, growing to about five feet, and has been naturalized in parts of this country. It has erect, white or violet flowers and a deeply fruit. It is a plant belonging to the "Nightshade" family, which are mostly coarse, straggling plants, but a few are grown for their large trumpet-shaped flowers. They are of easy cultivation, some being treated as tender annuals. The woody species are propagated by cuttings.

Drugs from the plant, medical sources said, have been used to relieve effects of asthma.

## Guest Rabbi

RABBI JOSEPH SCHWARZ

Rabbi Joseph Schwarz, former chief Rabbi of the Philippines, has been invited by Congregation Ahavath Israel of this city to conduct Friday night services here at 8:15 p. m. on August 26.

Rabbi Schwarz was called to the Philippines in 1938 and was spiritual leader of that community until May, 1949. During the crucial war years he was the spokesman of the Jewish community in dealing with the Japanese occupation authorities and played an important part in organizing extensive welfare work.

After the liberation, he was instrumental in reorganizing his war-torn congregation and was responsible for the rebuilding of the temple which had been destroyed during the street fighting in February, 1945.

Rabbi Schwarz is a graduate of the Jewish Theological Seminary in Breslau and majored in history at the universities of Breslau and Cologne. From 1930 to 1938 he occupied Rabbinical positions in Germany.

His topic in Kingston will be "Mantle: Epic of a Jewish Community." The public is invited.

## Charge 2,000 Greeks Moved to Cut Plans

Athens, Aug. 25 (AP)—A foreign ministry spokesman said today the Communist-led Albanian government had shipped 2,000 persons of Greek descent from southern Albania to Romania. He said the government will protest to the United Nations.

Greece has long claimed the southern Albanian region, which she calls Northern Epirus. The reported transfer of Greek-speaking people from the area was interpreted as an Albanian move to weaken Greek demands for union of Northern Epirus with the neighboring Greek province of Epirus.

The foreign ministry spokesman said the mass transfer was carried out by the Romanian motor ship Transylvania, which runs regularly from Black Sea ports to Albania. The evicted Greeks were reported landed at the Romanian port of Constanta.

## Advises Britain

London, Aug. 25 (AP)—Paul G. Hoffman, administrator of the European Recovery Program, gave British experts his views today on how to cut the dollar gap by expanding exports. He spoke privately at a luncheon of British members of the Anglo-American committee on productivity. The group includes representatives of the Trade Union Council, the British Federation of Industries, and the British Economic Federation. U. S. Ambassador Lewis Douglas is entertaining at dinner tonight in Hoffman's honor. Guests will include Prime Minister Attlee, Foreign Secretary Bevin, and Harold Wilson, president of the Board of Trade.

more than a week. The strikes have led to a split in the powerful Central Trade Union Federation which yesterday ordered the expulsion of four Red-dominated affiliates involved in unauthorized walkouts. It was reported this morning that demands for higher wages have been made by some groups of metal workers and that a strike was threatened if they were not granted. Many metal workers are producing war reparations goods for Russia. Two groups of metal workers—plumbers in Helsinki and Turku—already are out on wildcat strikes. The metal trades union has some 50,000 members.

## Worthwhile Stop

Wareham, Mass., Aug. 25 (AP)—An odd-looking package in the center of a highway attracted the attention of David Lumiansky, New Bedford insurance broker and prize fight matchmaker. He stopped his car and picked it up. It contained \$25,000 in bills of various denominations. Lumiansky reported to Police Chief Chester Churchill that he found the money. If no one claims it in a year, it's all Lumiansky's, the chief said.

## Hawaii Dock Strike Negotiations Still Off

Honolulu, Aug. 25 (AP)—Prospects were slim today that chief negotiations to settle Hawaii's 117-day old dock strike would be resumed immediately.

In Washington yesterday, U. S. Conciliator Cyrus Ching urged the seven struck stevedoring companies and the C.I.O. International Longshoremen's and Warehousemen's Union to get together.

Employers, union officials and Federal Mediator George Hillenbrand were to confer today on side issues disputed in Hawaiian ports outside of Honolulu.

The union is asking a wage increase of 32 cents an hour over its present \$1.40 an hour scale.

The union earlier had postponed indefinitely any renewed negotiation in Hawaii. It had said all developments awaited the return here of union President Harry Bridges who is in San Francisco. Word received yesterday was that he would not return soon.

Employers want to do their talking in Hawaii. But the union has indicated it would prefer the negotiations be resumed in Washington or New York. That was the suggestion from Ching.

Two strikebound Matson freighters were being unloaded by territorial government non-union longshoremen who drove through I.L.W.U. picket lines without incident.

## Plane Designer Dies

Banbury, England, Aug. 25 (AP)—John W. Dunne, 73, designer of Britain's first military airplane in 1906, died last night. ## U. S. Lawyers Fight to Prevent Red Mistrial

New York, Aug. 25 (AP)—Government lawyers fought today to save the Communist conspiracy case from ending in a mistrial—sought by the defense on grounds that a juror is prejudiced.

Federal Judge Harold R. Medina, who adjourned the trial yesterday so he could study the defense's charges, called for argument today (10 a. m., E.S.T.) on the mistrial motion.

U. S. Attorney John F. X. McGohy announced he would oppose the motion "in all respects."

Defense lawyers for the 11 Communist leaders on trial charged anti-Red bias on the part of juror Russell Janney, theatrical producer and author of the novel "The Miracle of the Bells."

If the mistrial motion is denied, the lawyers asked that Janney be disqualified as a juror and that a judicial inquiry be conducted to determine whether he has influenced other jurors.

If he should be disqualified, one of the three alternate jurors would take his place.

Counsel for the Communist leaders, charged with conspiracy to advocate violent overthrow of the government, contended the 65-year-old Janney is biased and "cannot be expected to return a fair verdict."

The defense lawyers said withdrawal of Janney from the jury would not satisfy them.

The defense demand was based largely on an affidavit filed by Miss Carol E. Nathanson, who said she is a friend of Janney and a singer-actress.

The affidavit included purported conversations that Miss Nathanson, known professionally as Carol Nason, had with Janney concerning the trial.

The mistrial demand was one of many such motions made by the defense during the trial, now more than seven months old. Many of the motions have been based on charges that Judge Medina is biased against the defendants.

The defense's objections to Janney were the subject of a private conference in Judge Medina's chambers on Tuesday. Janney's fitness to continue on the jury first was questioned in a story that day in the New York Daily Compass. A clipping from the Macon, Ga., Telegraph one day last February was reproduced in the Compass.

The defense, raising the point again yesterday, quoted Telegraph stories about anti-Communist speeches and interviews by Janney in Macon.

The defense complaint against Janney puts him in a peculiar position. The jury was out of the courtroom when the charges were made. Technically, he is not supposed to know anything about them, because the jurors are under orders not to read newspaper accounts of the trial.

Miss Nathanson's affidavit, in which anti-Communist utterances were said to Janney, also quoted him as saying "we have a very fair jury. . . . they won't be swayed or prejudiced by personal emotion. If isn't whether we like Communists or not—just, is this charge true or isn't it? . . . I am a very impartial juror, as impartial as a juror could be."

Miss Nathanson said in her affidavit that Janney once referred to her as a Communist. She neither confirmed nor denied it in the affidavit.

## Hurricane Seare Eases Along Eastern Seaboard

Miami, Fla., Aug. 25 (AP)—Tension eased along the eastern seaboard today as two hurricanes continued northward in the open Atlantic.

One brushed Cape Hatteras, N. C., passing about 20 miles offshore, and headed into the open Atlantic while the second also curved northward to by-pass the Bahamas.

The older storm brought high seas to the North Carolina coast and a boatman drowned there when he attempted to retrieve a loose skiff.

The other disturbance, which was reported headed toward the southeast Florida coast, curved northward and passed north of Turks Island, eastern outpost of the Bahamas.

The weather bureau here said at 5 a. m. (E.S.T.) today that no surface ship observations near the center of the storm had been received, but that its previous movement would place it latitude 23.5 north and longitude 71.2, or about 150 miles north-northwest of Turks Island.

"It is apparently still moving toward the northwest at about 15 miles per hour," the weather bureau reported.

Strongest winds near the center were estimated at 75 miles per hour and gales covered an area 150 miles north and east of the center.

The Veterans of Foreign Wars, holding their golden jubilee national convention in Miami, considered speeding up sessions when the hurricane pointed toward the city, but tension eased when later advisories showed the storm veering away.

## Copper Workers to Vote On Strike on Friday

New York, Aug. 25 (AP)—Strike votes are set for Friday night among C.I.O. mill and smelter workers in three east coast copper refineries.

Involved are two plants of the American Smelting and Refining Company, in Perth Amboy, N. J., and Easton, Md., and the Phelps Dodge refinery on Long Island, union officials said.

A fourth refinery, the U. S. Metals Refining Co., at Carteret, N. J., has been struck since July 1 by the union, the International Union of Mine, Mill and Smelter Workers.

The strike votes, the union said, are being taken to back up demands for a 25 cent hourly pay boost, pensions and other benefits.

Current pay scales were not disclosed.

## Barkley Is Proud As Paducah Squire

Washington, Aug. 25 (AP)—Vice President Barkley kept alive today the romantic speculation linking his name with a pretty St. Louis widow.

And he took obvious delight in being introduced as "the Squire of Paducah" and the new Spirit of St. Louis.

It all happened before several hundred Democrats last night in the Hotel Mayflower ballroom when the genial "Veep" spoke at a dinner of the national committee.

The widow, 37-year-old Mrs. Carleton Hadley, wasn't present. Her name was not even mentioned. But she was very much in everybody's mind when retiring National Chairman J. Howard McGrath introduced the 71-year-old Barkley.

The "Veep" threw back his head and laughed as heartily as anyone in the room at McGrath's reference to St. Louis.

"This," Barkley responded when quiet had been restored, "is the hour I long have sought and mourned because I found it not." He told the crowd he had "called up Missouri on the long distance telephone and she asked

me to give you her personal regards."

He went on to say that "there has always been an inseparable connection between Kentucky and Missouri" and "it looks like it's going to continue."

"That's what I hope," he added. "He said he feels very close to Missouri and he hopes the time will never come when I feel far removed from it."

He turned then to what he said were "serious affairs," but before doing so asserted, "I'm serious about that, too."

Later on, he said he was reminded of a story about a lady who met a man on the street. One said he was five. The other didn't know whether he was four or five years old. The story: "Are you interested in women?" asked the first little boy.

"No," the second replied.

"Then, you're four," the other lad explained.

## Santa Arrives Today For 260 Camp Kiddies

Port Jervis, N. Y., Aug. 25 (AP)—It's Christmas today for 260 kids in a summer camp near here. Santa Claus has a habit of missing a lot of chimneys down in New York's crowded Harlem.

So the directors of Camp Minisink have arranged to have him arrive here every August—in a rowboat instead of sleigh. The Negro children—from 6 to

16—lit up a Christmas tree last night and sang carols and loud as Santa wouldn't miss the camp on his promised midnight stop.

Aug. 25—or Dec. 25—doesn't make much difference to the kids, so long as there are gifts and turkey and all the trimmings, says Mrs. Alberza T. Kline, director of the New York City Mission Society's camp.

Each of the camp's 35 log cabins was decorated with a Christmas tree and mistletoe yesterday. Stockings were hung. And gifts arrived from far and wide to make Camp Minisink's 15th August Christmas the best ever.

**BARBECUED FISH FINE FOR PICNIC**

BARBECUED WHOLE FISH—On an outdoor grill, or over an open fire, is a holiday picnic treat.

By GAYNOR MADDOX  
NEA Staff Writer

At outdoor grill—or just a good fire on the rocks—can produce a wonderful picnic treat: barbecued fish. That's a Labor Day picnic thought worth studying.

But first you must catch (or buy) your fish. Any small fish such as butterfish, flounder, porgies or sea trout may be used.

**Barbecued Whole Fish**

Clean and dress fish and place on the barbecue grill. Sprinkle with garlic salt and pepper. Place a square of butter on each fish. Cook for 10 minutes over glowing coals. Grill should be about 3 inches from the hot coals. At the same time the fish is being grilled, grill large onion slices with a slice of tomato atop each. Sprinkle with salt and pepper.

**Barbecued Fish**

To barbecue small whole fish in the open when there's no barbecue grill, sprinkle cleaned fish with garlic salt and pepper. Run a thin sharp stick into the fish's mouth and through its body lengthwise. Pluck or hold the stick over hot embers and cook until it is brown and tender, but be sure not to overcook—3 to 5 minutes on either side. Dip in hot barbecue sauce and serve piping hot, right on the stick.

**Barbecue Sauce**

One cup catsup, 1/4 cup vinegar, 1/2 cup salad oil, 2 tablespoons brown sugar, 1/2 teaspoon salt, 2 tablespoons Worcestershire sauce

1 teaspoon dry mustard, 1 tablespoon Tabasco sauce, 1 onion, sliced.

Combine ingredients and heat to boiling point.

Fried corn with onions and green pepper should go to the picnic, too. Just chop the onions and green peppers at home and carry them to the picnic in a covered jar. Canned corn and the other ingredients can go in the picnic basket.

**Fried Corn With Onions and Green Pepper**  
(6 servings)

Two tablespoons fat, 1/2 cup chopped onions, 1/2 cup chopped green pepper, 1/2 teaspoon salt, pepper, 1/2 cup milk, 1 No. 2 can whole kernel corn.

Melt the fat in a frying pan. Add the onion, pepper and drained corn. Heat gradually and stir until the vegetables are somewhat dry and lightly browned. Stir in the salt and pepper. Add the milk and cook for a few minutes longer.

**Chill Delayed**

Daytona Beach, Fla. (AP)—Old-timers expecting the ocean to turn cold early in August seem to be in for disappointment. Nearly every year, Lifeguard Captain Don Kirkwood says, the temperature drops in August if southwest winds blow. They blow the warm surface water toward the Gulf Stream allowing sub-surface cold to rise. The change occurs only where the beach is white and wide and is not noticed at any other beach in the south, Kirkwood says. The water is still warm, however, with little likelihood of change.

## G.O.P. Chairman Urges Youth to Join His Party

Clinton, N. Y., Aug. 25 (AP)—The chairman of the Republican National Committee urges the nation's youth to join what he calls his party's "crusade to save the American republic."

Guy G. Gabrielson, in a speech read for him last night at a school of politics sponsored by the New York State Republican Committee for Young People, said:

"In a few days, you of the younger generation will be those who will determine the policies and the destiny of this nation. To do that, you have to be clear in your own minds what you stand for."

"Remember, if you do not stand for something, you may fall for anything."

Gabrielson said the Republican party offers "an established and an effective agency to safeguard free government and free men."

"I see a distinct challenge," he said, "for the Republican party to provide positive, aggressive leadership necessary to bring harmony and cooperation out of chaos and confusion both at home and abroad."

Gabrielson's speech was read to

the 150 students attending the school at Hamilton College by Edward T. Engle, radio director of the Republican National Committee.

The national G.O.P. chairman was prevented from making a planned personal appearance because of illness.

Gabrielson's office announced that he was suffering a virus infection of the throat and ears which confined him to his suite in a New York city hotel.

In what was to have been his first formal speech since his election to the G.O.P. chairmanship last August 4, Gabrielson said:

"What we need in this country is not less politics, but more and better politics."

He added:

"Ours is not a bankrupt government today, but it could very easily be reduced to that status if we were to adopt all of the expensive proposals which have been, and are being, made by persons who think that Utopia can be attained overnight."

John Tope of Detroit, chairman of the Young Republicans National Federation, Alexander Lankier of Corland, 21-year-old director of the school, and Miss Anna Tucker of New Rochelle, vice-president of the New York Federation of Young Republicans Clubs, joined in a round-table discussion of the school's programs and aims.

The round-table took the place of a radio network broadcast Gabrielson was to have made de-

## Lehman Will Run For Senate in Fall Says Big Democrat

Albany, N. Y., Aug. 25 (AP)—Former Gov. Herbert H. Lehman definitely will run for the U. S. Senate this fall, a high Democratic source said today.

The informant, who declined to be quoted by name, indicated that Lehman would accept the Democratic and Liberal Party nominations for election to the seat resigned by Democrat Robert F. Wagner.

Lehman, vacationing at Lake Placid, is expected to announce his decision soon, probably next week in New York city.

Once the 71-year-old Democrat

announces his willingness to run, his nomination would remain only a formality. Democratic and Liberal Party leaders reportedly have urged him to run.

Wagner, veteran New Deal Democrat, quit June 28 because of poor health. His term expires Jan. 3, 1951.

John Foster Dulles, veteran G.O.P. foreign affairs authority, now holds the seat by interim appointment from Governor Dewey. Dulles, appointed July 7, will serve until Dec. 1.

Dulles has reiterated that he has no expectation of running for election. There has been mounting pressure on him to become the Republican nominee.

The candidates for senator, and also for associate judge of the State Court of Appeals, will be nominated at party committee meetings Sept. 15. Democrats will

meet in New York city and Republicans in Albany.

Mayor William O'Dwyer of New York city will make the keynote speech of the Democratic session.

A senator will be elected again in 1950 for a full six-year term.

Lehman lost his first bid for the Senate in 1946, when Irving M. Loe was elected New York's first Republican senator in 20 years. Loe defeated Lehman by 250,000 votes, although Governor Dewey and other Republican candidates that year won by more than 600,000.

Lehman, a banker and philan-

thropist, served three two-year terms and one four-year term as governor.

**They Blow the House Up**

Bad Kladungen, Germany (AP)—The district president of Kladungen urgently needed money to build houses for refugees. State funds were exhausted, so he got the 30 mayors of his district together and formed a band, consisting mostly of trombones and trumpets. This mayor's band plays in all towns to collect funds. They have already blown enough for one house.

## Playhouse Feature

**Short of Expectations**  
Woodstock, Aug. 25—The world premiere of a new comedy, "Country Matters," by Robert Hill was presented to a capacity audience Tuesday evening and will continue through Sunday night. A most attractive set was designed by George Corbin. Bill Ross directed the production. On the whole the play did not come up to expectations.

Peggy Diem and Brandon Peters played their roles in a convincing manner. Others in the cast are Jacqueline Logan, June Lloyd Jones, Randolph Nichols, Fay Sappington, Granham Velsey and Lucinda Bryant.

## Marcault Program

Woodstock, Aug. 25—The program has been announced for the only recital to be given this summer by the eminent pianist, Jacqueline Marcault, Saturday at 4 p. m. in Town Hall. Selections will be Pour le Piano, Claude Debussy; Two Preludes, Le Nocturne, Chopin; and Un Reflet dans Le Vent, Olivier Messiaen; and The Goldberg Variations, J. S. Bach.

## Kroll Plays First Concert Sunday

Woodstock, Aug. 25—William Kroll, distinguished violinist, will make his first appearance this season at the Maverick Concert Hall Sunday at 4 p. m. Inez Carroll, pianist, and Cynthia Eddy, cellist, with the Minneapolis Symphony Orchestra, will also play. Kroll has just returned from the Berkshire Music Center, Tanglewood, Mass., where he was head of the chamber music department this summer. He appeared as soloist with the orchestra in Brahms' Double Concerto for Violin, Cello and Orchestra, under the direction of Serge Koussevitzky. Last Sunday he was heard over Station WJZ when he was concert violinist with the Chautauque Symphony Orchestra. He played Mozart's Concerto No. 5 in A Major for Violin and Orchestra, under the direction of Franco Aurilio. Selections for Sunday's concert will be Brahms' Sonata in D Minor for Violin and Piano; Beethoven's Trio in E Flat for Piano, Violin and Cello. An exhibition of paintings by local artist, Frederic Knight, will be shown.

## Truman Greets . . .

Intend and expect to elect more members of Congress next year who will back the Truman program. The committee applied the boot to Marion Rushton of Alabama, William H. Talbot of Louisiana, E. Snider and Mrs. Hermes Gautier of Mississippi and Mrs. Anne A. Agnew of South Carolina, for bolting last year to the States Rights presidential ticket of Gov. J. Strom Thurmond of South Carolina and Gov. Fielding Wright of Mississippi. Snider and Mrs. Gautier promptly turned up at a news conference at which the States Rightsers announced they are opening Washington headquarters and starting a nation-wide campaign for states' rights. Leander Perez of New Orleans, in charge of the office, said States Rightsers expect to set up committees in all states and try to elect governors, senators and congressmen who see eye to eye with them.

## Reds Appear Behind A Plan for Unity

Berlin, Aug. 25 (AP)—The Russians appeared today to be backing a fresh campaign for East and West Germany to get together in some form. This was evidenced by an outburst of editorials in the eastern press, which is controlled by the Soviet military government. The emphasis was on economics, rather than politics. But a political agreement was not ruled out. The appeal for Germany unity is not new. It has been a standing slogan of the eastern Communists. However, in this apparently remodeled drive, two factors stand out: 1—Eastern Berlin officials said an "understanding" is possible in the divided city. This was the politest language yet used by the Communists in their references to the anti-Communist West Berlin government. 2. The Soviet zone People's Council, dominated by Communists, disclosed that negotiations have been resumed between East and West German economic officials seeking a trade treaty. And Walter Ulbricht, Socialist Unity (Communist) political leader, declared good results might be achieved. The overtures were accompanied by a statement that only good will is needed to restore the city to normal and that good will exists on the eastern side. To this, Socialist Mayor Ernst Reuter of West Berlin commented that one thing would reunite the city, and one thing only: "A city wide free election." This, the Communists are reluctant to chance. For a quick dessert mix peach slices with sweetened whipped cream, cut marshmallows, and coconut. Add broken nutsmeats if you like.

## Mrs. Dillon Has Birthday

Woodstock, Aug. 25—Mrs. Sara Dillon had a surprise celebration Wednesday afternoon when more than 30 guests arrived to offer congratulations on her 83rd birthday. The party was held at the home of her daughter, Mrs. Stuart Grant. Mrs. Dillon was born in Chesterfield, England, and for many years prior to her marriage and settling in America, Mrs. Dillon was active in the field of education. (Freeman Photo)

## Talk Over New School Plans

Trustees of School District No. 2, Woodstock, are shown above as they prepared plans for a special school meeting at which voters of the district will be asked to approve a \$220,000 bond issue for the construction of a new school. ## Congressmen Are

thereafter. It would help bring next year's military budget down to \$13,400,000,000. The 1949 budget totals \$14,900,000,000. Johnson said the cuts are those proposed by the three armed services themselves. They will result in the closing of about 50 defense installations and the slimming down of a number of others. Congressmen whose home districts are involved got the low-down from Johnson yesterday. Many of them complained bitterly. Others approved. "It depends," said the western lawmaker wryly, "on whose ox is being gored." Rep. Taber (R-N.Y.), a leader of the House economy bloc, said his only complaint is that the cuts aren't larger. Rep. Rankin (D-Miss.) called air force reductions "absolutely unjustified" and said the military is following the pre-Pearl Harbor policy of too much cutting-down. Despite Congressional protests, military officials were reported pushing ahead with plans for the cutdown. As the first step, they were preparing quotas to be used as a guide by unit commanders ordered to cut down reserve officer strength. The citizens committee for the Hoover report greeted the economy move as a "strong and courageous step." The committee is a private or-

ganization pressing for enactment of all the government reorganization plans proposed by the bipartisan commission which former President Herbert Hoover headed. The committee said in a statement that the military cutbacks result from power Johnson got under the recent Unification Act, and added: "These will be the first major realized savings from the Hoover report."

## Denies Mistrial Motion

New York, Aug. 25 (AP)—Federal Judge Harold R. Medina today denied the motion by defense counsel for a mistrial in the Communist conspiracy trial. Judge Medina also denied the motion that Russell Janney, a juror, be disqualified and that an inquiry be made as to his possible "influence" on other jurors. Defense attorneys yesterday asked for a mistrial on the ground that Janney, author of the best-selling novel "Mistake of the Bell"—had shown bias in private conversations with an actress and singer, Miss Carol E. Nathanson.

## Limit on Arms

Washington, Aug. 25 (AP)—Senator Russell (D-Cal.) predicted today that Senate committees will put a \$450,000,000 limit on the amount of excess arms that can be sent to European nations under President Truman's arms aid program. There are about 51 varieties of certified potato seed.

## Vaughan's Memo

Truman "probably" had no personal knowledge of what Vaughan was doing. Mundt said he wanted to get the affair straight. He asked Flanagan whether Vaughan had interceded with Mrs. Shipley—"With or without the knowledge of the President, and in my opinion probably without the knowledge of the President"—to enable Maragon to visit Italy under a classification signifying that his trip had been approved by the President. Flanagan: "That's correct." Senator McCarthy (R-Wis.), when Flanagan told of the A.T.C. trips, observed that the trips were made at a time when space on A.T.C. was "at a premium because of the very great number of hospital cases that had to be brought back to this country." Following is the text of the memo: "August 3, 1945. "Memorandum for Mrs. Ruth B. Shipley. "Chief, Passport Bureau, State Department. "Attention: Mr. E. L. Reeves. "Mr. John F. Maragon, executive for the Albert Verley Company of Chicago is arranging to visit the continent, including the northern part of Italy for the purpose of re-establishing negotiations for essential oils for the above company. "I will appreciate your arranging with the proper authorities so that Mr. Maragon may visit the stated area for the purpose stated. "S/H. H. Vaughan. "Harry H. Vaughan. "Brigadier General, U. S. Army. "Military aide to the President (Pencil note). "Col. Vaughan. "Inform Mrs. Shipley that the President is personally interested in Maragon's trip to Italy—Col. S. agrees that he is ID. "JFS 8/25/45." Maragon was waiting to testify

when the documents were introduced. He came to the hearing late and found no place to sit. So he stood listening from a point just inside the door. Before they got around to the documents, the senators received testimony from a Washington lawyer that Maragon claims as a "fee" \$50,000 entrusted to him in 1948 by Trans-American Traders, Inc., in connection with a surplus property deal. International Exhibits. Moscow (AP)—The Soviet Union is taking part in three international exhibitions this year. They are scheduled for Plovdiva, in Bulgaria, Prague and Budapest.

## Police Find Purse Of Missing Widow

Los Angeles, Aug. 25 (AP)—Police early today found a purse belonging to Mrs. Mimi Boomhower, the first break in the baffling disappearance of the 48-year-old wealthy widow.

Capt. Emmett Jones said the purse was found in a telephone booth in a Beverly Hills supermarket. It contained no money or jewelry but did hold her cards, keys, compact and other items.

Printed on the side of the white purse was this:

"Robert Boomhower—We found this at beach Thursday night." Jones assigned 20 detectives to trace how the purse got from the unnamed beach to the store.

The widow, who lived alone in a \$50,000 Bel-Air home, disappeared Thursday.

Police feared she had met with foul play. She frequently wore

jewels worth a small fortune, and a neighbor said she was so "absolutely fearless" she would not be inclined to take precautions against robbery.

Her husband, Frank Boomhower, died six years ago. He amassed a fortune after inventing an enameled floor covering. The Boomhowers made several big-game hunts in Africa and one room in their home was crammed with more trophies than a museum.

Some of her experiences with wild animals were recorded on film, including the charge of a bull elephant which she killed without budging from her position.

Police checked with friends and relatives but failed to find a single clue to her whereabouts. Her brother-in-law, Elio C. Haimon, flew to Long Island, N. Y., said "she's missing and we don't have any idea what happened."

In older times, slaves warned their masters' beds, on cold nights, by lying in them first.

**CORN APLENTY**—The Agriculture Department forecasts that 1949 corn production will be only slightly less than last year's all-time record crop. The chart above shows size of the corn crop each year since 1945. This year's huge crop added to grain in storage gives us the greatest corn surplus in history. This means the government may have to curb production next year.

## Reds Spur Drive As Chiang Appeals For Finish Fight

Canton, Aug. 25 (AP)—Chiang Kai-shek appealed to Nationalist China today for a finish fight against the "aggression" of the "Communist International." The Reds answered with a new push on uneasy Canton.

The Chinese Reds have "unmasked themselves as international agents," the Nationalist generalissimo declared. He saw their power waning as a "strong arrow reaching the end of its flight."

But he also seemed to see the end of Canton as his government's refuge capital. For he said "today Chungking will again become the center for the fight against aggression."

The new Communist drive was unleashed by famed one-eyed Gen. Liu Po-cheng in the southwest corner of Kiangsi province. It threatened three towns near the Kwangtung province border—all within an arc 140 miles northeast of Canton.

It was believed the Reds were trying to take Chiennan, Lunghun and Tingnan as springboards for an enveloping movement aimed at

cutting the Canton-Hankow railway at Kulkong, 125 miles north of Canton.

If the maneuver succeeded, large Nationalist forces would be forced to retreat or risk encirclement. Canton would be seriously threatened.

Some 2,000 Communist irregulars from Kwangtung were moving toward a meeting with Liu's forces. Nationalist troops were sent to try to prevent this juncture.

Chiang's statement was issued at Chungking. He flew from Canton to China's World War 2 provisional capital yesterday—reportedly to keep western China warlords from dealing with the Reds.

The Nationalist leader said: "In the past four years the Communist International has robbed us of the land, people and resources of Manchuria, then extended its dark, gloomy iron curtain to North and Central China. Today Chungking will again become the center for the fight against aggression."

He asserted Communist morale was declining and their political position was weakening. Since the Reds crossed the Yantze in April, he said, their difficulties have increased, especially after they occupied large cities (The Communists have admitted trouble in handling such complex cities as Shanghai).

"Tens of thousands of people in Communist-held areas are rising

## Fear Race Issue May Kill Housing

Washington, Aug. 25 (AP)—The race issue today threw the House into a snarl that some leaders feared might kill a big housing bill. The measure would provide about \$4,000,000,000 of mortgage insurance and direct loans to help persons with modest incomes build homes.

The House yesterday, by a 77 to 57 vote, tentatively wrote a civil rights amendment into the bill, making it unlawful to segregate white and colored persons in housing aided by the legislation. The amendment was offered by Rep. Marcantonio, American Labor Party member from New York.

Fearing that such an amendment would drive off southern voters and kill the whole bill, Democratic leaders immediately postponed until today any further action and began working on a compromise.

## K'tanim Nursery Opens Fall Classes Early Next Month

The K'tanim Nursery School and Kindergarten announces the opening of its fall session September 6 after a successful summer season of day camp at Spring Lake. Morning classes will be conducted from 9 until noon for children in the 2 1/2 to 3 1/2 age level. Older children will attend the afternoon classes from 1 to 4 p. m.

Mrs. Beatrice Juffee, teacher in charge, explains that even the smallest child learns to participate in group activities, to share, to cooperate, to adjust to other children. The shy child develops his personality, the aggressive one learns to use his energies in constructive ways. Each child and his problems receives the individual attention of the teacher.

with whom the parent is free to consult from time to time.

The daily three hour session includes a variety of activities. Besides some outdoor play on swings and slides, there will be music and dancing, to records, rhythm band, constructive play with large type nursery blocks and mechanical toys, and dramatic play. The school is equipped for handicraft work, brush and finger painting, clay modeling, weaving and bead work. In the middle of the session there is a juice and cookie quiet period when stories are read.

The school provides transportation by bus.

There are still a few openings for this year's classes. Those interested should call Mrs. Charles Forst, telephone 5410, or Mrs. Murray Fletcher, telephone 5433-R.

## Louise Lethbridge, Woodstock, to Wed

New York, Aug. 24—A license to wed was obtained at the city clerk's office here today by Miss Louise Lethbridge of Woodstock and Herbert Martin, a teacher, of R.F.D. No. 3, New Brunswick, N. J.

The couple said they would be married soon.

The bride-elect was born in New York, the daughter of Rodney and Grace Church Lethbridge. Mr. Martin, the son of Samuel and Leda Bennett Martin, is a native of Portland, Me. He was divorced from the former Maria Troia a year ago.

## Ivan Obolensky Will Marry

Claire McGinnis This Fall

Mrs. Felix X. McGinnis of San Francisco and Lake Tahoe, Calif. has announced the engagement of her daughter, Miss Claire Elizabeth McGinnis, to Ivan Obolensky, son of Mrs. David Playdell-Bouvier of Rhinebeck, and Col. Serge Obolensky of 530 East 86th street, New York. The wedding will take place this autumn.

Miss McGinnis, daughter of the late Mr. McGinnis, attended Convent of the Sacred Heart and Miss Burke's School in San Francisco and was graduated from Finch Junior College.

Mr. Obolensky, a writer, was graduated from St. George's School, Newport, R. I., and Yale University, where he was a member of St. Elmo. He served for three years in the Naval Air Arm and is with Telavid, Inc.

Mr. Obolensky's mother, the former Miss Alice Muriel Astor, is the sister of Vincent Astor and daughter of the late Col. John Jacob Astor, who was lost on the Titanic and his first wife, Lady Ribblesdale, the former Miss Ava Willing of Philadelphia.

**Jacob's Pillow Festival**

Performances will be given at 4 and 9 p. m.

## Dorothy M. Howard Becomes Bride Of Charles Rigolino

Miss Dorothy Margaret Howard, daughter of Mrs. James Howard, 34 Meadow street, and the late Mr. Howard, became the bride of Charles Joseph Rigolino, son of Mr. and Mrs. James Rigolino, 58 Talmadge street, Poughkeepsie, Sunday at 2 p. m. The double ring ceremony was performed by the Rev. Edward Farrelly at St. Mary's Roman Catholic Church.

Miss Winifred Entrott sang Ave Maria and the traditional wedding selections were played by Theodor Riccobono.

The bride was given in marriage by her uncle, Joseph Winn. She wore a white slipper satin gown made with illusion neckline, Chantilly lace bertha and neplum, long pointed sleeves, full hooped skirt on train. Her veil of imported illusion was attached to a beaded tiara. She carried a cascade of white glamelias.

Mrs. Eleanor Roosa, cousin of the bride, of New Rochelle, as matron of honor wore a pink starched chiffon ribbon skirt gown with pink picture hat and carried yellow glamelias.

John Rigolino of Poughkeepsie was best man. Ushers were C. L. Roosa, cousin of the bride, and Joseph Rigolino, brother of the bridegroom.

The bridal party received 40 guests at the Rose Marie. Afterward Mr. and Mrs. Rigolino left for a wedding trip to upper New York state and Canada. For traveling she wore a white print two piece dress, white accessories and a corsage of white glamelias. They will live at 76 Livingston street, Poughkeepsie.

**Johnson-Brown**

Florence Brown and Albin Johnson, both of Brooklyn, were married August 14 by Justice of the Peace Edward Brodsky. Witnesses were George Siebert and Annette Loomis of Ulster Park.

**Martin-Fanatico**

Mildred E. Fanatico, Poughkeepsie, became the bride of Elting Martin, Highland, August 1. The Rev. Herald C. Swezy officiated. Gowan Williams and Elizabeth Swezy were witnesses.

Los Angeles, Aug. 25 (AP)—Tracy S. Voorhees, undersecretary of the army, leaves here today by air for Japan to confer with General MacArthur.

## Gloria Molyneaux Honored at Shower

Miss Gloria Molyneaux, 280 Clinton avenue, was honored at a bridal shower Monday night at the home of Miss Olive Handman, 190 Fair street. Decorations were in pink and blue featuring a pink and blue sprinkling can with streamers in an arch framed by ruffled border of white, pink and blue. Miss Barbara Andrew was a co-hostess.

Miss Molyneaux, daughter of Mr. and Mrs. Abram F. Molyneaux, will become the bride of Warren Simmons, son of Mr. and Mrs. Frank Simmons, 183 Fairview avenue, September 17 at the First Dutch Reformed Church.

Guests at the shower were the Misses A. F. Molyneaux, Roger Baer, Charles Goble, Cring Plough, Kasey Graham, Harold Bell of Trenton, N. J., John Duffy of Ossining, F. W. Simmons, Benjamin W. Johnson, Jay Molyneaux, and Raymond Myers.

**Altamari-Crispino**

Angeline Crispino, 79 Abruy street, and Nicholas Altamari, 71 Gill street were married August 14 by the Rev. Edward Farrelly. Angelo and Louis Altamari were witnesses.

## Personal Notes

M. Joseph Block, son of Mrs. Morris Block, 190 Albany avenue, left today for Baltimore, Md. He returned from Germany early this summer and during the past two months has been visiting in Washington, D. C., and the midwest.

Frank B. Van Sickle of New York is visiting his brother-in-law and sister, Mr. and Mrs. John R. Deyo, 21 O'Neil street.

Mrs. Frederick D. Campbell and daughter, Shirley Anne, of Butler, N. J., are spending the week with Mr. Campbell's mother, at the home of Mr. and Mrs. William Kaercher, Grandview avenue.

Mr. and Mrs. John Woolsey of Oakville, Conn., are visiting relatives and friends in Kingston and New Paltz.

Mr. and Mrs. James M. Henry and sons, Donald and Thomas of Wilmington, Del., who have a cottage for the summer at Lake Wausink, Sullivan county, were overnight guests of his mother, Mrs. J. J. Henry, Sunset Park. Also visiting Mrs. Henry is another grandson, Richard Cornell of Cornwall.

**Frost-Walker**

Irene Walker and George S. Frost of Brooklyn were married July 30 by the Rev. Joseph Bow-

ers Palmer at the Bronx. Ruth Walker and Ed Kurlasher of Brooklyn were witnesses. The bride is the daughter of Frank Walker of the Ontario Trail and New York.

# Colonials Flash Speed and Power Taking Over Bridgeport Bees, 5-4, at Stadium

## Poughkeepsie Club On Schedule Tonight

Maybe it comes under the heading of hindsight, but you had to wonder about our Colonials last night as you watched them defeat the Bridgeport Bees, 5 to 4, for the second time running.

You couldn't help wondering what a difference season it might have been, if they had flashed the same speed, hustle and power throughout the entire campaign.

They got good pitching from Big Ray Riescher, they exploded for the one big inning and they hit the long ball. They knocked off four double plays. Put all these items together with any reasonable consistency and you have a great ball club.

Riescher yielded two runs in the first and eighth frames and then gallantly snuffed out a Bridgeport threat in the ninth to give the Colonials a sweep of the two-game set.

Buddy Mahan slammed his third homer of the season—a 380-foot beauty over the right field fence with Danny Perlmutter aboard to launch Kingston's four-run threat in the third. After Matzer singled to center, Sposa sacrificed and Ralph scored on Ernie Burke's double to center. Yenger tried unsuccessfully for a shoestring catch. Burke went to third on a wild pitch and scored on Riescher's long double that bounced over the fence in left center.

The Bees picked up two runs at the outset on leadoff Bagdon's double, a base on balls, error and a long fly by Biddle. Another single by Krondracki drove in the second run.

George Hanley, the second base flash, beat out an infield hopper in the eighth and scored when Paulus' long smash bounced over Thomas' head for a fluke triple. Krondracki's safety delivered Paulus for a 5-4 count.

Colonial rooters had a few uneasy moments in the ninth when Riescher plunked Neagle in the back with a pitched ball. Neagle stole second while Spursky, in pinch hitter, was striking out. Yenger walked after Bagdon fled to right but with two out and the dangerous Hanley at the plate, Riescher bore down and got the shifty Negro for the final out on a tap to the box.

Burke's scratch single along the third base line and Clint Anstuetz's double into the field corner racked up a Colonial marker in the second off starter Joe Linskey.

Danny Perlmutter and Ernie Burke each rapped three hits for Kingston. Krondracki, who started as a pitcher Tuesday night, collected three hits for the Bees and drove in two runs.

The appearance of Max Patkin, the famous clown-contortionist, attracted nearly 500 chilled spectators to the stadium. Patkin was funnier than ever, a real baseball showman.

The Poughkeepsie Chiefs are in tonight for a single engagement at 8:30. Catcher-pitcher John Pluchino, who shut them out Sunday in Poughkeepsie, is the probable Chief starter.

## COLONIAL ROUNDUP

(By The Associated Press)

The Bristol Owls have not yet clinched their second successive Colonial League pennant, but, if they win one more of their 18 remaining games than they lose, second place Stamford will have to win all its remaining 17 to get a tie.

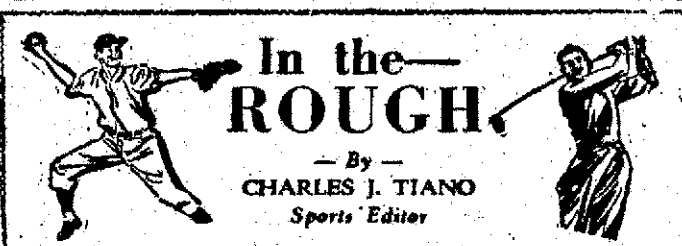

Third place Bridgeport, by winning all its remaining 16 games under the same circumstances, would wind up a full game behind the Owls.

Both Stamford and Bridgeport aided the Bristol cause last night by losing to Waterbury and Kingston respectively while Bristol was taking its second straight from Poughkeepsie 5-4.

Waterbury dumped Stamford 3-2 in a thriller in which relief chucker Big Ed Hrabesak's eighth inning wild pitch set up the winning run. Larry Ketchner moved from second to third on the errant loss. He scored on Bill Seabro's long fly.

Bristol got away fast at Poughkeepsie in scuttling the Chiefs. Two walks, three singles, two stolen bases, both by Carlos Bernier, and the one Poughkeepsie error gave the Owls four runs and a flying start. Bernier's thefts gave him a total of 55 for the season.

Kingston also came up with a four-run inning to take the sting out of the Bees. After Bridgeport had gotten away to a two-

## Bagatelles:

Those are strange sounds coming from Manager Casey Stengel when he says he doesn't know when he'll use Johnny Mize in the Yankee lineup. The Yankee situation being what it is, you'd think he'd try anything—even a castoff Giant. We think Mize can still deliver a few home runs that might help the Yankees. He can't be as bad as Leo Durocher pictured him. Durocher never wanted Mize at the Polo Grounds and made no secret of it. You couldn't expect Mize to deliver under those circumstances.

## Flotsam and Jetsam:

Those inter-league waiver deals are hard to fathom. Come to think of it, you have to bracket Ed Rybinaker with Johnny Mize and Jackie Phillips. How else do you account for Rybinaker's splitting from Colonial Merchants to Morgan's Restaurant on the eve of the City League Shaughnessy? After belly-aching for two weeks about a \$8 we fired against him in the opening round of the Tvaalsskill-Wiltwyck golf feud, Lou Kuntzowitz retaliated Sunday by causing a 45-foot putt and a 30-foot chip shot off the green against us. Mrs. Maurice Davenport and Miss Agnes Kennedy played the longest tournament match in Wiltwyck Golf Club history Sunday, when Mrs. Davenport edged her opponent, 1 up, in 22 holes. Erv Tommy Dunbar said it was the longest championship match he could ever recall. Leon Randall and Billy Van Aken will go 36 holes for the Wiltwyck. We can't go along with 18-hole matches to decide a club championship.

Assuming that you were in the business, what odds would you fix for the Randall-Van Aken classic on Sunday? Who would be your choice?

A reminder to the folks who might be inclined to sell Alvin Bolen short in the Tvaalsskill finals, and if he wins, in the city finals. In 36 holes of play against Roy Vogt, an ex-champion and still one of the toughest twice finished 1-down.

## Of Men and Mice:

Don't look now but isn't that a football the kids are kicking around. Which reminds us that with Kingston and Port Jervis stripped of their veterans, it should be in shoe-in for Newburgh Free Academy or Middletown in the 1949 FUSO.

Wesley F. "Big" Gill, the B standing for golf bomber, means about the dearth of golf action in Kingston, while he tours the East's hotspots with Tex Lavender, West Point pro and a Texas golfing ace of the old school. Mayhap, Gill and Lavender would like to take in the writer and Alex Gerlak for the Hudson valley writer-pro championship. Strictly minnie-muggie, of course.

At Searfoss, of Walden-on-Hudson, is the new Saugerties High School physical director. He succeeds veteran Larry Cahill who moves up to principal. Searfoss is one of the best baseball pitchers in the region.

Kingston horseshoe pitchers routed Middletown, 28 to 8, last week at Patsy Beliste's course on Albany avenue extension. Al Rosen and Ken Williams scored 6-0 victories. Dave "Doodle" Popple just glided into the editorial room, all 300 pounds of him, and that can mean only one thing—boxing. Bill Johnston's pro wrestlers come in on Tuesday, Sept. 18. Dr. Fred Holcomb, Jr. was in town last week and toured Wiltwyck in 38-43-81 and a net 74 to win the golf ball sweepstakes. A 21-year-old Albany golfer, William James Shields is being tabbed as a darkhorse in the U. S. Amateur. Meanwhile, Ray Billows of Poughkeepsie, three times a bridesmaid but never a bride in the Amateur, says his game "isn't good and it isn't bad." Well, what is it?

**MULLIGAN MIKE:** The neighbors have a new weed in their gardens—the automobile weed, so named, because it grows while they are out automobileing.

## THE BELL TOLLS FOR STEVE

Steve Belloise holds rope during count of five at end of seventh round of his Yankee Stadium, New York, battle with Ray Robinson. Bell saved Belloise but he was unable to appear for the eighth round. The fight was non-title and scheduled for ten rounds.

## Robinson Trims Belloise; Wants Crack at Middleweight Title

New York, Aug. 25 (AP)—"I want a shot at the middleweight title. I think I've earned it."

Welterweight Champion Ray Robinson made the statement last night. It was probably the greatest understatement made in sports all year.

Off his performance he certainly deserves the chance. Whether he'll get it is something else again.

After he cut down soggy Steve Belloise in seven rounds at Yankee Stadium last night some 28,812 fans were ready to concede him to be the No. 1 middleweight, Champion Jake LaMotta notwithstanding.

Iron-chinned Jake and Marcel Cerdan, the former 160-pound boss who met in a return clash for the crown here September 28, were among the bumper throng which saw last night's massacre.

Robinson hit Belloise with every shot in the book. He won every round but the fifth when he was bothered for just two minutes by a desperate, do-or-die attack from the balding, 30-year-old ex-salior.

Sugar Ray flattened Steve near the end of the seventh with as perfect a left hook to the chin as you'll see in the ring or movies.

## Chicago Skipper Leads Yachting Race Series, Has 111

Chicago, Aug. 25 (AP)—Harry Nye, veteran Chicago skipper and 1941 champion, led the world's championship Star Class yachting races today with a three-race series total of 111 points as the 40 sailors rested before resuming competition tomorrow.

Nye, representing the southern Lake Michigan fleet, finished fourth in his Gale yesterday to grab first spot in the series standings ahead of Robert Lippincott, of Riverton West New Jersey, who finished sixth in Blue Star II yesterday to bring his point total to 100.

Star of the show, however, was 19-year-old Lowell North, of San Diego, Calif., who drove his North Star II across the finish line first for his third consecutive victory. The California youth remains in 13th place in the series standings, however, because the committee penalized him 40 points, gained in Tuesday's triumph, for moving into the right of way of another craft. North's present point total is 80. His winning time yesterday was two hours, 50 minutes and 51 seconds.

North's yacht edged out Twin

Star, sailed by defending champion Lockwood Pirie, who finished in 2 hours and 51 minutes flat. He likewise was penalized 39 points for a foul in Tuesday's race and he currently stands in 14th place with 76 points.

## U. S. Tennis Forces Hope to Cut Down Australia Over Week-end

New York, Aug. 25 (AP)—Their games razor sharp, Uncle Sam's tennis forces are looking to a sweeping victory over Australia this week-end in the Davis Cup challenge round.

Confidence on the home front has been buoyed by the smashing play of Ted Schroeder and Pancho Gonzales in recent practice sessions. They took unbeatable in singles.

Also, the doubles team of Gardnar Mulloy and Billy Talbot has picked up plenty of extra zip since their defeat at the hands of Aus-

tralia's Frank Sedgman and George Worthington in the national championships.

The draw for tomorrow's opening singles matches was scheduled at 1 p. m. (E.S.T.) today.

Cliff Sproule, non-playing captain, said he had not decided whether to play Billy Sidwell or the veteran John Bromwich in the No. 2 singles spot. Frank Sedgman, the young Aussie champ, is sure to play one singles.

The U. S. is set on its lineup. It will be Schroeder and Gonzales in singles, Mulloy-Talbot in doubles. Schroeder and Gonzales squared

off a chips-down match yesterday in practice at the West Side Tennis Club in Forest Hills, scene of Davis Cup play. Both gave a smashing exhibition, with Schroeder leading 8-7 when rain halted activities.

Earlier the two cup teammates had learned seedings for next week's national championships at Forest Hills which had placed Schroeder No. 1 and Gonzales, the defending champ, No. 2.

Gonzales was out to show Schroeder that the seeding committee was wrong. So there was a lot of try on both sides.

William Talbot of New York was seeded third in the nationals, opening next Monday, and Gardnar Mulloy of Miami fourth. Surprisingly, Frank Parker, former national champion, was placed fifth.

Louise Brough of Beverly Hills, the Wimbledon champion, topped the women's seeded list with last year's U. S. title, Mrs. Margaret Osborne duPont, second.

## MAJOR LEAGUE ROUNDUP

By The Associated Press

By JOE REICHEL

Associated Press Sports Writer

The spirited stretch battle between Brooklyn and St. Louis may develop into a personal feud between the rival managers of the pennant-hungry clubs.

Thus far, Eddie Dyer, boss of the Redbirds, has kept his peace. At least he hasn't openly belittled the Brooks. But not old Bart Shotton. The 64-year-old firebrand, sometimes referred to as "Bartling Barney," is simply spilling for a fight.

Nearly back to his normal cocky self following a couple of smashing victories over the Cardinals, the silver-haired pilot of the Brooks disdainfully referred to the Redbirds as "just a so-so ball club."

"They're not much," Shotton dismissed the Cards today. "And here's why. We've never lost worse than we have during the past week and yet those guys could build up only a one game lead on us. In my book that makes the Cards not so hot."

"They've had all the breaks and still couldn't open up a big lead on us," Barney continued. "What are they going to do when the breaks begin to fall our way, as I know they will. I think we're finally straightened out. We're sure to take them now."

Informing of Shotton's remarks, Dyer had this to say:

"Lucky, eh? Yeah, we're lucky to have old pros like Musial, Slaughter, Marlon and Schatzkin on our side. Let's see how they have fared against those dangerous Dodgers? I think we've beaten them 11 out of 19. Yeah, pard, I guess we are lucky at that."

Shotton's Dodgers never looked better than they did yesterday, at that. They were smooth, aggressive and positively spectacular in their 6-0 triumph over the Redbirds.

Don Newcombe overpowered the Cards, giving them only six scattered hits and allowing only one man to reach third.

Everybody in the starting Dodger lineup connected safely. Carl Furillo, Roy Campanella and Gil Hodges hit homers.

In winning the rubber match of the three-game series, the Dodgers moved only one game off the league leading Cards. They began the series two games behind.

The American League race tightened, too, when the pace-setting New York Yankees, playing without their ace, Joe DiM-

gio, took a terrific 13-2 lacing from the Tigers in Detroit. Thus, the idle Boston Red Sox moved up to within two games of the Yanks. That's the closest they've been to the top since the first week of the season.

Vic Wertz led the Tiger attack with a pair of home runs, although 13 walks issued by three Yankee pitchers did just as much damage. One of Wertz' blows came with the bases full. Art Houtman breezed to his 11th victory with a 10-hitter.

Johnny Mize, purchased from the Giants last Monday, played his first game for the Yankees, getting a single in four times at bat.

For the second straight night, the third place Cleveland Indians failed to take advantage of a Yankee defeat when they bowed to Washington's seventh place Senators, 5-2.

The Philadelphia Athletics retained their fourth place hold over the Tigers by the slimmest of margins—one percentage point—by conquering the Chicago White Sox 5-0. Dick Fowler pitched his fourth shutout and 12th victory of the year for the Mackmen.

Boston's third place Braves in the National League eked out a 6-5 victory over the Pittsburgh Pirates. Lefty Warren Spahn staggered to his 16th victory, which was Boston's fifth in a row.

Wes Westrum, rookie catcher, slammed two home runs to lead the New York Giants to a 5-3 victory over the Chicago Cubs. Sheldon Jones went all the way to register his 10th victory.

Boston and St. Louis in the American, and Philadelphia and Cincinnati in the National, were idle.

### Proximity Is 6-5 Favorite Tonight At Roosevelt Oval

Westbury, N. Y., 25 (AP)—Proximity, winner last year in world record time, heads a field of 12 that is scheduled to face the barrier tonight in the \$50,000 Roosevelt two-mile trot at Roosevelt Raceway.

The seven-year-old mare, owned by Ralph and Gordon Verhurst of Victor, N. Y., is a favorite at 6-5.

## Baseball Leaders Deny Knowledge of Fixes

New York, Aug. 25 (AP)—If there have been large scale attempts recently to "fix" baseball games, the higher-ups of the sport say they don't know about it.

As for reports that there have been hundreds of tampering efforts in the past few years and even implied threats of violence, Secretary Walter Mulby of the commissioner's office said yesterday they had "no substance."

He acknowledged there had been a couple of letters addressed to baseball men which aroused suspicion. When they were properly investigated, he said, they were found to be of a crackpot nature.

The New York Post Home News reported yesterday there had been hundreds of attempts to fix games in recent years with "sums up to \$10,000 offered to players."

The article was one of a series dealing with what the paper calls a five billion dollar a year betting racket controlled by gambling mobs.

The paper specifically cited a

tampering letter sent to a Brooklyn player and an apparent effort to get to Eddie Dyer, manager of the St. Louis Cardinals.

Mulby said these cases had been called to the attention of Commissioner A. B. Chandler's office and investigated.

"Dyer received a telegram from Dallas which said: 'Just bet \$5,000 on tomorrow's game. There was no request made in the telegram,'" Mulby said. "A fictitious address had been given in the telegram."

"There was a letter from a person dealing with gambling which we investigated. It came from an asylum."

Fred Saigh, Jr., owner of the Cardinals, said the wire to Dyer came while the manager was on the road.

"I immediately forwarded the wire to Commissioner Chandler, without ever informing Dyer about it," he said.

The wire, according to Saigh, came from Dallas and read: "I know the Cards will win. I hope they do. I'm making a large bet."

Ford Frick, president of the National League, disclosed that Bruce Edwards, Brooklyn Dodger catcher, had received a "nutty" letter several weeks ago.

"Edwards turned the letter over to Parrott. (Harold Parrott, traveling secretary of the Brooklyn club), Parrott turned it over to me and I turned it over to Chandler," the league executive added.

Investigation showed the man who wrote the letter was a "mental case," Frick said.

Edwards related the letter didn't deal with fixing games at all but rather suggested a "sure fire" mathematical system for betting on games which "would make each of us \$50 a day."

Mulby said the commissioner has been getting letters from all over the country about gamblers trying to meddle with the sport, but these are the only cases to reach his office.

"There is no substance to any of the reports," he declared.

Oakland, Calif.—Maurice Harper, 149½, Oakland, outpointed Ed Turner, 152½, Richmond, Calif., 10.

**OPPOSES WINNIE**—William Brooks, above, has been named as the Communist Party candidate who will oppose Winston Churchill in the British general elections next year. They will contest for votes in the city of Woodford, in the Essex County constituency.

**House Being Moved**  
New York, Aug. 25 (AP)—That yellow "dream house" at Sixth avenue and 52nd street was melting away today like lemon ice cream under the sun—bound for a new life in Fort Washington. Its new owner, Herbert Brasch of (328 E. 113th street) Manhattan, says he hopes to have it all moved over the week-end and put back together in a month. Brasch bought the \$15,000 house yesterday for \$1,000 from Alfred Birnbaum, a veteran who won it on a 50-cent raffle ticket.

**Fliers Are Freed**  
Batavia, Java, Aug. 25 (AP)—The Dutch high commissioner today pardoned three American fliers convicted last January by a Netherlands court on charges of running guns into Indonesia. A U. S. consulate spokesman said, Freed were Albert W. Onstott, Xuba City, Calif.; Connie W. Seligman, Vin, Okla.; and William Hallam, Portland, Ore. They had been sentenced to prison terms ranging from 18 months to four years.

## Broady Refers To Wire Charges As 'Lot of Bunk'

New York, Aug. 25 (AP)—Attorney John G. Broady pounded the railing of the witness box today and called the wiretap-grand larceny charges against him "a lot of bunk."

He also said Assistant District Attorney Wyllys S. Newcomb was making a "rotten insinuation." Broady is accused of faking tapped telephone conversations to defraud Kings County Buick, Inc., of more than \$8,000 last fall during his investigation of an alleged black market in cars. He is on trial in the General Sessions Court.

Broady claims he got the wiretaps from one of his operatives, Wilbur F. Marvel, who died early this year.

Now under cross examination, Broady was asked by Newcomb if he hadn't met with Mrs. Marvel last April to fabricate a defense. "I never fabricated any story at any time," Broady shouted and banged the witness rail. "This story that I fabricated a lot of wiretaps is a lot of bunk."

Newcomb then asked if Broady had ever loaned his extra apartment to friends "as a house of assignment."

Broady, in denial, declared, "That's absolutely false. It is a rotten insinuation to make."

Newcomb then held up a picture of a man and asked if he were "an underworld locksmith." Broady said the man in the photo had sold him office fixtures and added, "I just call him George. He's a 32nd degree Mason, a Shriner, and a swell fellow."

At this point Broady's own lawyer, John McKim Minton, warned his client to stop talking and answer questions. Minton then apologized to the court because he had no right to instruct the witness.

"You are very helpful," replied Judge Jacob Gould Schurman.

**Admits B-36 Memo Had 'Confidential Data' in It**

Washington, Aug. 25 (AP)—The suspended navy official who wrote the anonymous memo that touched off the B-36 investigation acknowledged today he put "confidential data" into it.

Cedric Worth also told the House Armed Services Committee he had given a copy of the document to plane manufacturer Glenn Martin without knowing whether Martin was entitled to secret information.

The document now has reached many hands. Committee Counsel Joseph B. Keenan suggested that parts of it relating performance figures of the giant six-engine intercontinental bomber, might help an enemy or potential enemy.

"I don't doubt that they had it," Worth said.

The exchange on confidential material came shortly after Worth had backed down on part of yesterday's testimony.

At that time he told the House Armed Services Committee, making the investigation, that he told his boss, Navy Undersecretary Dan Kimball, four or five days ago that he wrote the memo.

Today Worth said what he actually told Kimball was that Chairman Vinson of the committee was saying Worth was the writer.

**New York Lists 57 New Polio Cases Today**

New York, Aug. 25 (AP)—Polio cases in New York city were up again today, with 57 new listings in the 24 hours ending at 9 a. m.

It was the fourth straight day of increase after the epidemic had apparently dropped a little last week.

Two new deaths were also reported during the 24 hour period, with four more added from delayed reports.

"This increase represents the sort of day-to-day variation or fluctuation that can be expected at this stage of the epidemic," the city health department said.

New York city has now had a total of 1,321 cases, compared to 203 cases last year. "There have been 11 deaths this year."

**Have Own Troubles**

Prague (AP)—A meeting of the Czechoslovak-British Chamber of Commerce decided to change its name from the Original Czechoslovak-British Chamber of Commerce to the British-Czechoslovak Chamber of Commerce. That was the text of an announcement by the government press agency and there was no explanation why it took a month to come through government channels to be cleared for publication. In the interim, however, the nation's controlled press reported that while various foreign chambers of commerce were maintained here for the promotion of foreign trade, the internal chamber of commerce had been liquidated as "enemies of the working class."

**NEW WEAPON IN THE WAR ON BUGS**—The big machine moving down the cotton rows on the Earl Harris farm near Navasota, Tex., is a mechanical bug catcher. The catcher uses fierce blasts of air to force boll worms into its collecting funnels. Once caught, the worms are burned. Use of the new bug catcher in the Brazos river bottoms of Texas has increased cotton yield from as low as one-tenth of a bale per acre to as high as two bales per acre.

## Grand Army to March For Television Program

Indianapolis, Aug. 25 (AP)—The grand army of the republic has won a preliminary skirmish in its final campaign.

It will march triumphantly three-fourths of the way around Monument Circle next Wednesday—in order that station WFTM-TV may televise its parade.

The last survivors of the boys in blue are to hold their 83rd and final encampment here next week. The old soldiers—five centenarians are expected to ride in the parade—wanted to have their parade televised.

Custom limits parades to one quarter of Monument Circle. The Indianapolis board of safety stood firm—only one quarter for the GAR.

The grand army was ready to retreat when a powerful task force—Mayor Al Feeney—outflanked the board.

"The GAR can march around Monument Circle 10 times if it wants to," the mayor said.

The board announced its position and surrendered unconditionally.

The parade will be three quarters, and television.
